US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460 NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>	EPA REGISTRATION NO. 7616-20004	DATE OF ISSUANCE MAR 30 1994
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Kem Tek Liquid Chlorinating Product	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Chem Lab Products, Inc.
 5160 East Airport Drive
 Ontario, CA 91761

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Within the Statement of Practical Treatment (first Aid), in the "If Swallowed" statement, delete the reference to milk and gelatin solution.
2. Within the "Laundry Bleaching Applications" instructions, in the "Disinfects and Eliminates Odors" paragraph, replace the word "disinfects" with "sanitizes" both places where it occurs.

For our records submit a Confidential Statement of Formula (a blank form is enclosed) revised only by changing the lower limit in column 14-b for sodium hypochlorite so that it is less than 5.25%, but not less than 5%.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL	DATE
---------------------------------	------

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

MULTI-PURPOSE

Bleach

LIQUID CHLORINATING PRODUCT

CLEANS • DEODORIZES • DISINFECTS / SANITIZES • BRIGHTENS
FOR: Laundry, Stain Removal, Mildew Removal

ACTIVE INGREDIENT: Sodium Hypochlorite 5.25%
INERT INGREDIENTS: 94.75%

KEEP OUT OF REACH OF CHILDREN
DANGER: See additional precautions on side panel
NET: 128 FL. OZ. (1 GAL.) 3.79 L

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IF CONTACT WITH EYES OCCURS, flush with water for at least 15 minutes. Get prompt medical attention.

IF CONTACT WITH SKIN OCCURS, wash with plenty of soap and water.

IF SWALLOWED, drink large quantities of milk or gelatin solution, if these are not available, drink large quantities of water. DO NOT give vinegar or other acids. DO NOT induce vomiting. Get prompt medical attention.

EPA EST 7616-CA-1; 7616-FL-1; 7616-TX-1

EPA REG NO. 7616-20004

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive, may cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

LAUNDRY BLEACHING APPLICATIONS

BRIGHTENS WHITES AND REMOVES STAINS. This bleach works with detergent to remove tough dirt and stains that detergent alone cannot.

DISINFECTS AND ELIMINATES ODORS. This bleach disinfects and deodorizes laundry by eliminating most germs and their odors.

BOOSTS COLD WATER CLEANING POWER. Most detergents do not clean as well in cold or warm water. This bleach gives your detergent extra cleaning power to remove stains and kill germs in cooler water.

SAFE FOR MOST COLOR-FAST WASHABLES. This bleach brightens and softens colored washables. To check if a garment is bleach-safe, try this BLEACH-SAFE TEST: apply one drop of a test solution (1 tablespoon this bleach plus 1/4 cup water) to a hidden part of the fabric. Check all colors including trim. Let stand 1 minute, then blot dry. No color change means the article can be safely bleached.

STK # 2070

3/4

4/4

revised-10/24/93

MULTI-PURPOSE BLEACH

Use to bleach white and fast colors only (first to be sure) of Acrylics, Cotton, Nylon, Polyester, Rayon.

DO NOT USE ON ACETATE, LEATHER, SILK, SPANDEX OR WOOL

PRETREAT STAINS AND HEAVY SOILS. Sublimed stains may be treated for 15 minutes in a solution of 1/4 cup of bleach to 1 gallon of cool laundry water.

ADD BLEACH AND DETERGENT. This bleach may be added to the wash water before laundry is put in, or for best results after the start of the cycle and add 5 or 8 minutes after the wash cycle has begun. Use the recommended amount of the bleach as shown. For very large loads, add slightly more bleach.

HAND WASHING: Mix 1 tablespoon of bleach per gallon of water, wash as usual.

HOUSEHOLD SANITIZATION / DISINFECTION DIRECTION FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

LAUNDRY SANITIZERS Household Laundry Sanitizers

IN SOAKING SUDS: Thoroughly mix 5 oz. of this product to 10 gallons of wash water to provide 200 ppm available chlorine. Wait 5 minutes, then add soap or detergent, immerse laundry for at least 11 minutes prior starting the wash/rinse cycle.

IN WASHING SUDS: Thoroughly mix 5 oz. of this product to 10 gallons of wash water containing clothes to provide 200 ppm available chlorine. Wait 5 minutes, then add soap or detergent and start the wash/rinse cycle.

BATHROOM APPLICATIONS: FOR TOILET BOWLS, SHOWERS, BATH TUBS AND SINKS

DISINFECTION OF NONPOROUS NON-FOOD CONTACT SURFACES

RINSE METHOD: Prepare a disinfecting solution by thoroughly mixing 15 oz. of this product with 10 gallons of water to provide approximately 600 ppm available chlorine by weight. Clean equipment surfaces in the normal manner. Prior to use, rinse all surfaces thoroughly with the disinfecting solution, maintaining contact with the solution for at least 10 minutes. Do not rinse equipment with water after treatment and do not soak equipment overnight.

IMERSION METHOD: Prepare a disinfecting solution by thoroughly mixing, in an immersion tank, 15 oz. of this product with 10 gallons of water to provide approximately 600 ppm available chlorine by weight. Clean equipment in the normal manner. Prior to use, immerse equipment in the disinfecting solution for at least 10 minutes and allow the sanitizer to drain. Do not rinse equipment with water after treatment.

KITCHEN (FOOD CONTACT) APPLICATIONS: FOR SINKS, CUTTING BOARDS, DISHES, UTENSILS, APPLIANCES, ETC.

SANITIZATION OF NONPOROUS FOOD CONTACT SURFACES

RINSE METHOD: A solution of 100 ppm available chlorine may be used in the sanitizing solution if a chlorine test kit is available. Solutions containing an initial concentration of 100 ppm available chlorine must be tested and adjusted periodically to insure that the available chlorine does not drop below 50 ppm. Prepare a 100 ppm sanitizing solution by thoroughly mixing 2 oz. of this product with 10 gallons of water. If no test kit is available, prepare a sanitizing solution by thoroughly mixing 5 oz. of this product with 10 gallons of water to provide approximately 200 ppm available chlorine by weight.

Clean equipment surfaces in the normal manner. Prior to use, rinse all surfaces thoroughly with the sanitizing solution, maintaining contact with the sanitizer for at least 2 minutes. If solution contains less than 50 ppm available chlorine, as determined by suitable test kit, either discard the solution or add sufficient product to reestablish a 200 ppm residual. Do not rinse equipment with water after treatment and do not soak equipment overnight.

Sanitizers used in automated systems may be used for general cleaning but may not be re-used for sanitizing purposes.

SANITIZATION OF POROUS FOOD CONTACT SURFACES

RINSE METHOD: Prepare a sanitizing solution by thoroughly mixing 15 oz. of this product with 10 gallons of water to provide approximately 600 ppm available chlorine by weight. Clean surfaces in the normal manner. Prior to use, rinse all surfaces thoroughly with the sanitizing solution, maintaining contact with the sanitizer for at least 2 minutes. Rinse equipment with water after treatment and do not soak equipment overnight.

STORAGE AND DISPOSAL

Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water. Product or residues that cannot be diluted should be cleaned with water before disposal in a sanitary sewer. Do not reuse container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
