U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 M St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
7627-21

Date of Issuance:
JAN 6 2000

**NOTICE OF PESTICIDE
Reregistration**

Term of Issuance:
Reregistration

Name of Pesticide Product:
Stockade Fly Control Mineral Mix

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

**Mr. Dick Kelly
Harvest Brands, Inc.
P.O. Box 46
Pittsburg, KS 66762-0046**

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration eligibility Documents, EPA has reregistered the product listed above. This action is taken under the authority of section 4 (g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Registration under this section does not eliminate the need for control reassessment of pesticides. EPA may require submission of data at anytime to maintain the registration of your product. with regards to labeling, you must make the labeling changes listed below:

1. Based on the Acute Toxicology profile for this product you must include a heading of "First Aid" or "Statements of Practical Treatment". The statements of practical treatment should be placed directly below the header "Precautionary Statements". First Aid statements should read as follows:

FIRST AID

"IF SWALLOWED: Call a physician or Poison Control Center immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told by poison control center or doctor.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment

IF ON EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing. Call a poison control center or a doctor for treatment advice."

2. The following statements should be placed near the First Aid Statements:

"In case of emergency call (insert toll-free emergency number)."

Signature of Approving Official:
M. D. G. Labron

Date:
JAN 6 2000

"Have the product container or label with you when calling a poison control center or doctor or going for treatment."

3. The "HAZARDS TO HUMANS" statement must be modified to read as follows:

"Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction to some individuals.

Personal Protective Equipment (PPE)

Mixers and Handlers must wear:

- long-sleeved shirt and pants
- shoes and socks
- chemical resistant gloves."

4. A "User Safety Requirements" statement must be added to the label and should read as follows:

The recommendations should read as follows: "Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry."

5. A "User Safety Recommendations" statement must be added to the label and should read as follows:

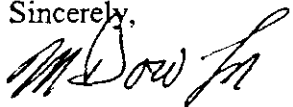

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing."

6. While this product is toxic to fish, it is not necessary to make the statement: "Do not contaminate water when disposing of equipment wash water."

7. Under the heading "Directions for Use", add the statement: "Feeds with this product should not be pelleted or mixed with feeds containing predominantly pellets. This product should not be mixed with liquid feed supplements."

Enclosed, please find a copy of your most recently submitted label stamped "Accepted with Comments." Please submit two (2) copies of your final printed label before you release this product for shipment. I'll be happy to answer any questions you may have regarding this issue.

Sincerely,

George LaRocca

Fly Control Mineral Mix

with Rabon® Oral Larvicide

For Beef Cattle On Pasture

To prevent the development of horn flies, face flies, house flies and stable flies in the manure of treated cattle.

ACTIVE INGREDIENT

Tetrachlorvinphos:	
(Z) 2-chloro-1-(2, 4, 5-trichlorophenyl)	
vinyl dimethyl phosphate.....	0.60%
INERT INGREDIENTS*	99.40%
Total.....	100.00%

*Refers only to ingredients which are not larvicidal.

GUARANTEED ANALYSIS

Calcium (Ca), minimum.....	16.00%
Calcium (Ca), maximum.....	19.00%
Phosphorus (P), minimum.....	4.00%
Salt (NaCl), minimum.....	20.00%
Salt (NaCl), maximum.....	24.00%
Magnesium (Mg), minimum.....	1.50%
Copper (Cu), minimum.....	25ppm
Selenium (Se), minimum.....	12ppm
Zinc (Zn), minimum.....	280ppm
Iodine (I), minimum.....	30ppm
Vitamin A, minimum IU units/lb.....	30,000
Vitamin D ₃ , minimum IU units/lb.....	7,500

FEED INGREDIENTS

Calcium carbonate, salt, monocalcium and dicalcium phosphate, magnesium limestone, magnesium oxide, dried cane molasses, iron oxide, manganese oxide, zinc oxide, calcium iodate, ferrous carbonate, cobalt carbonate, sodium selenite, copper sulfate, cobalt carbonate, vitamin A supplement, vitamin D₃ supplement, mineral oil, cane molasses artificial and natural flavors.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Feed STOCKADE Fly Control Mineral Mix free choice at the rate of 4 ounces per 1,000 pounds of body weight per head per day or by mixing it into the ground grain or complete daily ration. STOCKADE Fly Control Mineral Mix may be fed up to slaughter and to lactating dairy cows. Start feeding STOCKADE Fly Control Mineral Mix early in the spring before flies begin to appear and continue feeding throughout the summer into the fall until cold weather restricts fly activity.

STOCKADE Fly Control Mineral Mix prevents the development of horn flies, face flies, house flies and stable flies in the manure of treated cattle but is not effective against existing adult flies. When starting a feeding program during the fly season, it is desirable to use other control measures to reduce the population of existing adult flies.

In some cases, supplemental fly control measures may be needed in and around cattle lots and buildings to control adult house flies and stable flies which can breed not only in cattle manure but in other decaying vegetable matter or silage on the premises.

In order to achieve optimum fly control, STOCKADE Fly Control Mineral Mix should be used in conjunction with good management and sanitation practices.

ACRIFLOR
with COMMENTS
in EPA Letter Dated

JAN 6 2000

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 7627-21

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS**

CAUTION: Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash with plenty of water. If irritation persists, get medical attention. Wear long-sleeved shirt and pants; chemical resistant gloves; shoes and socks for protection when handling. This product may cause skin sensitization in certain individuals.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not contaminate water when disposing of equipment wash water.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Storage: Do not store next to herbicides. Store in a dry place in original container. Container Disposal: Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles into feeder equipment. Then dispose of empty bag in a sanitary landfill or by incineration; if allowed by state and local authorities, by burning. If burned, stay out of smoke. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
