WALNUT GROVE 4x4 ADD-MIX FLI-KIL

PRECAUTIONARY STATEMENTS — HAZARDS TO HUMANS CAUTION

Marmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash with plenty of water. If irritation persists, get medical attention. Wear long-sleeved shirt and pants; chemical resistant gloves; shoes and socks for protection when handling. FRVIRONMENTAL HAZARDS

This product is toxic to fish. Do not contaminate water when disposing of equipment wash water.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store is a dry place is original container.

DISPOSAL: Completely empty container into application (mixer/feeder) equipment. Then dispose of empty has in a sanitory landfill or by incineration or if allowed, by State and local authorities by burning. If burned, stay out of sanks. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

No preslaughter withholding period is required.

PfGS (weaners to market weight): Mix 25 lb. of Walnut Grove 4x4 Add-Mix Fli-Kil per ton of meal type feed and offer free choice. This is equivalent to 22.7 mg of Rabon per lb. of feed.

SOWS, BOARS, AND BREEDING GILTS: Mix 50 lb. of Walnut Grove 4x4 Add-Mix Fli-Kil per ton of meal type feed and offer 4 to 6 lb. of feed per animal per day. This is equivalent to 45.4 mg of Rabon per lb. of feed.

Start feeding Walnut Grove 4x4 Add-Mix Fli-Kil early in the spring before flies begin to appear and continue feeding throughout the summer and into the fall until cold weather restricts fly activity.

All swine should be treated. Walnut Grove 4x4 Add-Mix Fli-Kil prevents developed ment of house flies in the manure from treated swine but is not effective against existing adult flies.

In some cases, supplemental fly control measures may be needed in and around the area to control adult flies which move in from other areas or which breed on decaying vegetable matter elsewhere on the premises.

In order to achieve optimum fly control, Walnut Grove 4x4 Add-Mix Fli-Kil should be used in conjunction with other good management and sanitation practices.
