ANTIDOTE AND FIRST AID PRECAUTIONS

Atropine is the emergency antidote for Metathion. Consult your physician for obtaining a supply of 1/4 or 1/100 grain atropine tablets or emergency use.

CALL A PHYSICIAN IMMEDIATELY IN ALL CASES OF SUSPECTED POISONING.

EMERGENCY: If the material has been swallowed, induce vomiting immediately. This may be done by introducing a finger into the throat or by giving warm salt water (one level spoon of salt to a glass of water.) Never give anything by mouth to an unconscious person.
