

GERMICIDAL DETERGENT

A SCIENTIFIC COMBINATION OF EXTREMELY EFFICIENT CLEANERS EXPERTLY BALANCED WITH POWERFUL GERMICIDALS MADE ESPECIALLY FOR USE IN INSTITUTIONS, INDUSTRY, SCHOOLS AND HOSPITALS.

GERMICIDAL DETERGENT'S ~~max~~ speed of germicidal action, combined with its cleaning properties, offer the user economy and efficiency by combining two jobs into one easy step. The controlled sudsing, together with the soil-suspending phosphates, eliminates water spotting and allows free rinsing of all surfaces.

GERMICIDAL DETERGENT may be effectively used in general cleaning and disinfecting following these simple directions:

- * FOR GENERAL CLEANING - Use 6 ounces (3/4's cup) of GERMICIDAL DETERGENT to each gallon of warm water to clean and disinfect floors, walls, operating rooms, restaurant equipment, and other objects. Scrub in usual manner. Rinse if necessary. (You must rinse well ~~the~~ utensil which may come in contact with food products.)
- * FOR GENERAL DISINFECTING: - Use 4 ounces (1/2 cup) of GERMICIDAL DETERGENT to each gallon of warm water. This will control a wide spectrum of both gram-positive and gram-negative bacteria.

PHENOL COEFFICIENT: (A.O.A.C. METHOD) 25 . . . Staphylococcus aureus
 14 . . . Salmonella typhosa

ACTIVE INGREDIENTS: N-alkyl (C₁₄, C₁₂, C₁₆) dimethyl benzyl ammonium chlorides, isopropanol, trisodium phosphate, tetrasodium salt of ethylenediaminetetraacetic acid.
 INERT INGREDIENTS : (includes compatible detergents and builders) . . . 91.71%
 Water, octyl phenoxy polyethoxy ethanol, sodium tripolyphosphate.

CAUTION: This is a concentrated disinfectant. Do not take internally. Avoid food contamination. Do not allow contact with skin or eyes. If contact occurs, wash thoroughly with water. If irritation occurs and persists, get medical attention. KEEP OUT OF REACH OF CHILDREN.
