

CAUTION: Combustible Mixture. Do not spray near open flame. Do not smoke while using.

DIRECTIONS; For best results, read these directions carefully before use. Remove protective cap, point open type nozzle towards nest, crevice or hole where infestation or insects are known to be inside. Press center of valve top all the way down and spray area until completely wet with spray. This treated area will have a Residual Killing action and prevent re-infestation for 2 to 4 weeks. In the event the Insecticide becomes ineffective due to rain or other causes repeat treatment. In outdoor use always spray with the wind at users back. Due to the powerful spraying action of this spray it is not recommended for indoor use in homes but may be used in factories or warehouses.

CAUTION: Harmful if swallowed. Keep out of reach of children. Wash hands well with soap and water after using if insecticide accidentally contacts skin. Do not apply on persons. Repeated or prolonged contact with skin may cause toxic symptoms. Avoid inhalation of spray. Avoid spraying in or around food or cooking utensils. Do not spray on pets or warm blooded animals. Do not apply on vegetation. Do not spray on a asphalt tile. Store below 120° F. Do not puncture container or throw in fire. Do not set container in direct sunlight, on radiators, etc., or other sources of direct heat.

Active Ingredients

Pyrethrins	.15%
Piperonyl Butoxide Technical	.30%
Methyl Biogal Ester Disulfonate	.10%
Naphthalene Technical	.10%
Petrolatum Distillate	42.05%

Alkaloids, C. P. (Methylcinnamyl) (Cinnamylcinnamyl)
and related compounds.

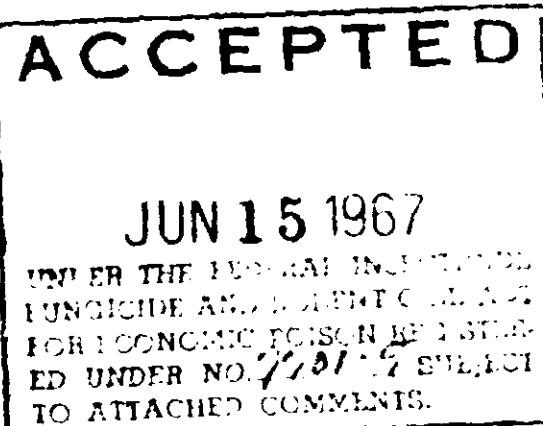

Pyrethrin, technical grade, 10% active
Pyrethrum, dried flowers.
