UNDER THE FEDERAL INSECTICIDE FUNGICIDE AND RODENTICIDE ACT FOR EXTERNAL POISON REGISTERED UNDER NO. 7701-16 SUBJECT TO ATTACHED COMMENTS

This ROOM DEODORANT AND AIR SANITIZER is formulated for the institutional market for professional use. Perfumes the air like a rare sachet. Fragrance lingers for hours after use.

Aids in the reduction of airborne bacteria thus leaving the air in the room cleaner and pleasantly perfumed.

Completely covers the foul odors from smoking, pets, bathrooms, kitchens, and other sources of bad odors.

Perfumes the air in airconditioned rooms where outside air is kept out. Deodorizes gym shoes, bowling shoes, and other athletic equipment.

May be used in schools, offices, homes, restaurants, hospitals, nursing homes, and should be kept in restrooms everywhere. Excellent for use in auto's airplanes, or meeting rooms where people are closed in.

DIRECTIONS: Remove protective cap. Hold dispenser upright, pointing valve away from face. By spraying room until a light fog is formed this formula will reduce the number of airborne bacteria and virus particles. This will aid in providing a temporary decontamination of the air. Gym shoes, bowling shoes, and other athletic equipment should be sprayed individually for best results. Repeated applications should be made periodically according to conditions that prevail.
