

Directions For Use:

Initial Dose: 1 gallon ALGAE - NOX SWIMMING POOL ALGAECIDE to 50,000 gallons of water.

Maintenance Dose: 1 quart ALGAE - NOX SWIMMING POOL ALGAECIDE to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of ALGAE-NOX for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of ALGAE-NOX to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

Chemical Specialties, Inc.

Algae-Nox

Swimming Pool Algaecide

Keeps Pool Water Clear and Free of Visible Algae and Algae Slimes.

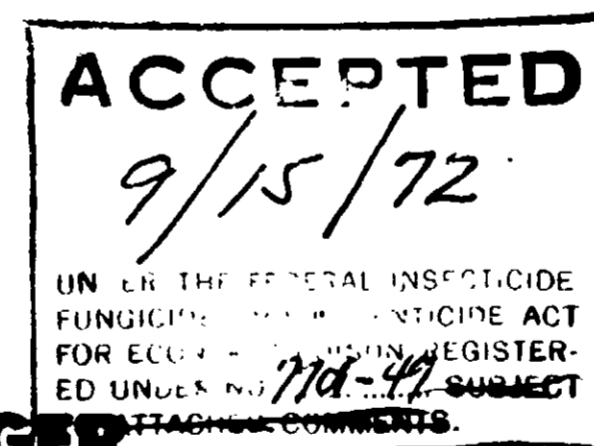

ACTIVE INGREDIENTS:

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)
dimethyl benzyl ammonium chlorides. 5%
n-Alkyl (68% C12, 32% C14)
dimethyl ethylbenzyl ammonium chlorides. . 5%

INERT INGREDIENTS. 90%

100%

E. P. A. Reg. No.: 7701-49 NET CONTENTS

DANGER

KEEP OUT OF REACH OF CHILDREN

See other warnings on side panel.

When ALGAE-KNOX SWIMMING POOL ALGAECIDE is used as directed, it will kill and prevent development of clorella pyrenoidosa (green), Phormidium inundatum (black algae), Phormidium retzii (square D algae), Lyngba versicolor (blue-green) and other swimming pool algae.

ALGAE - NOX SWIMMING POOL ALGAECIDE is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners or premixed with other water-treating chemicals. ALGAE - NOX works best when added by itself directly to pool water. ALGAE-NOX at use dilution is non-corrosive to inanimate surfaces.

DANGER

KEEP OUT OF REACH OF CHILDREN
Causes severe eye and skin damage. Do not get in eyes, on skin or clothing. Wear goggles or face shield, and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FISH AND WILDLIFE CAUTION: This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

Rinse empty container thoroughly with water and discard.
