

6

INDUSTRIAL TYPE

TIME MIST INSECTICIDE is engineered for use in the TIME-MIST Automatic Aerosol Dispenser. The TIME-MIST Dispenser automatically actuates the special metered valve every fifteen minutes. Within 24 hours the area is relatively free of flies, mosquitos, gnats and with continued use reduced annoyance from them. One TIME-MIST Dispenser is designed to protect a room up to 30' x 20' x 10'. TIME-MIST Insecticide contains 3000 sprays when dispensed at a rate of 66 mg. per spray.

OPERATION: Remove protective cap from top of can and insert can in TIME-MIST Dispenser. Suspend Dispenser 7' from the floor and at a point where wind flow will carry the particles throughout the room.

CAUTION

Do not use in nurseries or rooms where infants, ill or aged people are confined. Use 12 feet or more from exposed food or food handling or dispensing surfaces.

PHYSICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.
