

INDUSTRIAL TYPE

TIME-MIST INSECTICIDE is engineered for use in the TIME-MIST Automatic Aerosol Dispenser, is many times stronger than average insecticides, and of special design for long lasting operation. The TIME-MIST Dispenser automatically actuates the special metered valve every fifteen minutes, releasing tiny particles which remain suspended in air, killing flies, mosquitoes, gnats, and small flying moths. Within 24 hours the area is relatively free of the specified small flying insects and with continued use reduced annoyance from them. One TIME-MIST Dispenser is designed to protect a room up to 30' x 20' x 10' for 30 days, 24 hours a day. TIME-MIST Insecticide II contains 3000 sprays when dispensed at a rate of 100 mg. per spray.

OPERATION: Remove protective cap from top of can; insert can in TIME-MIST Dispenser. Suspend Dispenser 7' from the floor and at a point where wind flow will carry the particles throughout the room.

CAUTION

Do not use in nurseries or rooms where infants, ill or aged people are confined. Use 12 feet or more from exposed food or food handling or dispensing surfaces.

DISPOSAL

Do not reuse empty container. Wrap container and put into trash collection.

PHYSICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

TIME-MIST® METERED INSECTICIDE II

KILLS FLIES, MOSQUITOES, GNATS
AND SMALL FLYING MOTHS

ACTIVE INGREDIENTS:

Pyrethrins	90%
*Piperonyl butoxide, technical	1.80%
N-octyl bicycloheptene	
dicarboximide	3.00%
Petroleum distillate	14.20%
INERT INGREDIENTS	80.00%
	100.00%

*Equivalent to 1.44% (butylcarbityl) (6-propylpiperonyl) ether and .36% related compounds.

**3000
SPRAYS**

METERED FOR
EFFICIENCY
AND ECONOMY

CAUTION: KEEP OUT OF REACH OF CHILDREN. READ CAUTIONS AND DIRECTIONS ON BACK BEFORE USING
Net Wt. 12 oz.

FOR USE IN:
food-handling areas of super-markets, food plants, restaurants, food warehouses, bottling plants, hospitals, nursing homes, day care centers, hotels, motels, egg handling areas of chicken houses, milk handling areas of dairies.
