

"STATEMENT OF PRACTICAL TREATMENT:
FIRST AID: If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention.
IF SWALLOWED, drink large amounts of water. DO NOT induce vomiting. Call a physician or poison control center immediately."

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER: Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

ENVIRONMENTAL HAZARDS:

See copy below

**PHYSICAL AND CHEMICAL HAZARDS:
STRONG OXIDIZING AGENT:** Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to eyes, lungs and mucous membranes.

Environmental Hazards:

"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA."

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

KLOR300 is to be used only in connection with the Low Temperature commercial dish washing system which is developed to wash and sanitize institutional dishware. This product is not for sale or to be used for any other purpose than in connection with the Low Temperature commercial machines, and equipment.

FOR SANITIZING TABLEWARE IN LOW TEMPERATURE DISHWASHING MACHINE.

Remove gross food particles and soil by pre-flush, or pre-scrape and, when necessary, pre-soak treatment. Then place wares in dishwasher. Be sure dishwasher is dispensing proper type and amount of detergent.

Dispense KLOR 300 into final rinse water at 100 ppm of available chlorine. Do not allow concentration to fall below 50 ppm. Air dry.

Dispenser should be set to deliver 6cc or KLOR300 per gallon of water to give 100 ppm of available chlorine. Only a qualified service representative should set or adjust dispenser on the machine. Do not use on Sterling Silver or Silver Plate.

Note: This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of chlorine if you are not regularly serviced by ChemMark trained servicemen who test level on each service.
