DIRECTIONS

REMOVE CAP: Hold dispenser upright about 6" to 8" from article to be sprayed.

Spray the inside of the shoe directly and evenly, allowing the shoe to dry before wearing.

Polychem Shoe Spray sanitizes and deodorizes. Dries instantly, leaves no oily film. Use daily to obtain maximum anti-bacterial results.

For best results, spray many pairs of shoes at once and let stand overnight.

CAUTION: Do not puncture or dispose of empty container in fire. Keep away from fire or flames. Avoid contact with food. Do not spray directly into eyes. May be harmful or fatal if swallowed. For external use only. Discontinue use if burning or irritation occurs.
