FLY CONTROL ORAL LARVIDE "R" PREMIX WITH RABON[®] FOR MINK

To prevent the development of fly larvae in the droppings of treated mink, "R" Premix for Mink contains 2.5 grams of insecticide per pound.

ACTIVE INGREDIENT:
2-Chloro-1-(2,4,5-trichlorophenyl) vinyl dimethyl phosphate 7.75%
INERT INGREDIENTS:** 92.25%
Total: 100.00%

GENERAL DESCRIPTION. When fed to mink, "R" Premix for Mink passes through the digestive system into the droppings where fly larvae are killed on contact shortly after the fly eggs hatch. "R" Premix for Mink helps to control the development of house flies but should not be used as the sole method of fly control.

DIRECTIONS FOR USE. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. "R" Premix for Mink will mix uniformly in mink feeds when standard mixing procedures are followed. It is recommended that appropriate preblending techniques be employed to assure adequate distribution of "R" Premix for Mink throughout the feed mix. "R" Premix for Mink should be preblended with soybean meal, alfalfa meal, mineral mix, etc., before being added to other ingredients. Common feed mixing equipment (i.e. vertical mixers, horizontal blenders) may be used to prepare formulated feeds. "R" Premix for Mink should be added to the total feed at a rate that will ensure that each animal will consume 3 mg/kg of body weight (1-2 mg/pound) per day. Use the following table as a guide.

MIXING DIRECTIONS

Pounds of Feed Consumed per Animal per day	Amount of "R" Premix for Mink 7.75% Premix in feed		
	500 lb.	1000 lb.	2000 lb.
0.10	318 grams	1.4 lbs.	2.8 lbs.
0.25	114 grams	527 grams	1.0 lbs.
0.33	90 grams	180 grams	380 grams
0.5	58 grams	118 grams	236 grams
0.75	40 grams	80 grams	160 grams
1.00	35 grams	70 grams	140 grams

Start feeding "R" Premix for Mink larvicidal feeds early in the Spring before flies begin to appear and continue feeding throughout the Summer until cold weather restricts fly activity. Supplemental adult fly control measures may be needed in and around the animal facilities and feed building to control adult flies, especially house flies that can breed in many kinds of organic matter. In order to achieve optimum fly control, "R" Premix for Mink should be used in conjunction with other good management and sanitation practices.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See additional precautionary statements below

*Rabon[®] Insecticide
**Refers only to ingredients which are not larvicidal
EPA Reg. No. 7762-15
EPA Est. No.

PRECAUTIONARY STATEMENTS — HAZARDS TO HUMANS — CAUTION. Keep out of reach of children. Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash eyes with plenty of water. If irritation persists, see a physician.

ENVIRONMENTAL HAZARDS. This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL. Do not contaminate water, food or feed by storage or disposal.

Storage: Keep dry.

Pesticide Disposal: Pesticide or rinsate that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.

Container Disposal: Dispose of bags according to approved Federal, State or local procedures under the Resource Conservation and Recovery Act.

WARRANTY AND LIMITATION OF DAMAGES. Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty, including any other express or implied warranty of fitness or of merchantability, and no agent of Seller is authorized to do so except in writing and with specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT	
NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> RENEWAL <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>	161/7700 15/1	
NAME AND ADDRESS OF REGISTRANT (include ZIP code) Leslie Salt Co. 7200 Central Avenue P. O. Box 364 Newark, CA 94560		
NOTE: Changes in labeling format differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA/Sec. 3(c)(7)(A) provided that you:		
1. Submit and/or cite all data required for registration/re-registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.		
2. Make the labeling changes listed below before you release the product for shipment:		
a. Add the phrase "EPA Registration No. 7702-15."		
b. On your final printed labels be certain to use 18 point type for the signal word (caution) and 12 point type for the "Keep out of reach of children statement." The type size for the headings of the Storage and Disposal Statement must be of the same size as the Child Warning Hazard. The type sizes for these statements on your label submission of August 18, 1982 are too small. I have enclosed a type size guide to aid you in developing your final printed labels.		
c. The container disposal statement should be revised to something similar to the following example:		
Completely empty bag by shaking and tapping along

and bottom to loosen clinging particles. Empty residues into application equipment. Then dispose of bags in a sanitary landfill or by incineration if allowed by State and local authorities.

Your concern in your letter of August 18, 1962 relevant to submitting or citing all data is fulfilled in statement one above.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
