**DAO  
PLUS**

**TREATS  
2,500  
SQ. FT.**

## Does 4 Jobs At The Same Time

- (1) Prevents Crabgrass, Goosegrass and Foxtail from growing.
- (2) Full-Feeds your lawn.
- (3) Kills Soil Insects such as Beetle Grubs and Ants.
- (4) Revitalizes Your Lawn—contains iron and 6 additional plant nutrients for extra greening.

Dacthal Plus Three prevents the germination of 27 hard to control lawn weeds including Crabgrass, Goosegrass and Foxtail (see back panel for specific weeds).

**Caution: Keep Out of Reach of Children.** Harmful if swallowed. Avoid contact with eyes and skin. Avoid breathing dust. Wash after handling or using. Do not take internally. Do not store near fertilizer, seeds or other pesticides. See back panel for additional cautions.

### Active Pesticidal Ingredients:

Dialkyl ester of tetrachlorophthalic Acid**	2.29%
Technical Chlordane (equivalent to 0.72% Octachloro-4,7-methanotetrahydroindane and 0.48% related compounds)	1.80%

Inert Ingredient	96.82%
<b>TOTAL</b>	<b>100.00%</b>

# DACTHAL PLUS THREE

# DACTHAL PLUS THREE

Treats 2,500 Sq. Ft.

Special  Way Benefits

- (1) Full feeding and non-flowering when used as directed.
- (2) One application effectively prevents 27 hard to control weeds. Provides season long control.
- (3) Kills soil insects such as beetle grubs, ants, chafers, earwigs. Aids in the control of mole and skunk problem by killing the grubs on which they feed.
- (4) Iron and additional plant nutrients restores vigor and green color to grass by amending soil deficiencies where needed.

Annual Bluegrass	Red Stem Filaree	Spiny Pigweed	Lambquarters
Barnyardgrass	Witchgrass	Spotted Spurge	Palmier Amaranth
Bromus Parviflorus	Dandelion	Teas Plant	Purslane
Cyperus	Fall Panicum	Common Chickweed	Wright Groundcherry
Stinkgrass	Florida Parslane (Pusley)	Smooth Crabgrass	Yellow Foxtail
Prostrate Spurge	Goosegrass	Hairy Crabgrass	
Red Root Pigweed	Green Foxtail	Johnsongrass (from seed)	

The Carrier in this product is ORGANIC—tiny corn cob granules saturated with plant nutrients, preemergence weed control, and insecticide solutions.

Each Corn Cob granule has been impregnated with the proper ingredients. Result—a uniform, light-weight product that releases the ingredients evenly as the corn cob granule decomposes due to moisture and temperature.

Because of its organic nature, the corn cob granule is subject to decay when in contact with the soil and decomposes into Humus—a desirable benefit.

\*Process Patented under U.S. No. 3,252,785

### Directions For Use

**When To Apply:** For best results, apply on established lawns in the spring for crabgrass and other weed seed control. For annual bluegrass (*Poa annua*) and common chickweed seed control, apply an additional application at 1 1/2 recommended rate.

**How To Apply:** Use Heritage House Spreader setting 7 (equivalent to a rate of 10 lbs. per 1,000 sq. ft.). Apply on established lawns when grass is dry. Apply over entire lawn area, slightly overlap spreader wheel tracks so no strips are missed. Will not injure ornamentals and shrubs such as:

Aster	Azalea	Mountain Laurel	Lilac	Yew
Arborvitae	Dogwood	Juniper	Viburnum	Roses

Do not use on following plants:

Ajuga (Bugleweed)	Carnation	Germander	Phlox	Mesembryanthemum
Button Pink	Pansy	Gerum	Sweet William	Telanthera

**Warning:** May injure bent lawns. Where spring seeding is necessary, there should be a delay of approximately 60 days after application. If reseeding is done before 60 days after application of Dacthal Plus 3, the amount of grass seed sown should be increased by 50% to insure thrifty stands. Thoroughly clean spreader before using for other purposes. Toxic to fish and wildlife. Do not contaminate ornamental fish ponds. Birds feeding on treated areas may be harmed. Keep children and pets off treated area until well watered and completely dried.

Do not contaminate ponds or lakes used by fish or wildlife.
