**50% MALATHION
Insect Spray**

Malathion Insect Spray controls certain sucking and chewing insects attacking ornamentals, vegetables, and fruits. It is also effective against other annoying insect pests.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH ALL WARNINGS AND DIRECTIONS, AND WITH APPLICABLE FEDERAL AND STATE REGULATIONS.

Spray thoroughly, covering both sides of leaves and other infested plant parts. Do not spray within 3 to 5 days of harvest on food crops. Do not store diluted spray. Make new dilutions. 3 teaspoonfuls = 1 tablespoonful = 1/2 oz.
