

[7768-4]

Separate los espirales y use uno a la vez poniéndolo sobre la base de metil
propiólico en la caja. Friccione el borde del extremo abierto del espiral
contra la piel. Los posquitos se repelerán al hacer contacto con el humo continuo
que proviene de la caja.

ACTIVE INGREDIENTS INGREDIENTES ACTIVOS

Net Weight 10 coils 4.68oz.
EPA Registration No.7768-4 MADE IN JAPAN

DIRECTIONS FOR USE

Separate the coil and place it at a time by placing it
over the coil support. Light the outer end of coil. Melted wick will be dependent
on temperature contact with smoke when the coil begins to burn. Hold in
place until burnt out. When the coil is burnt out, use insect repellent.
