

# GERMICIDAL CLEANER

Esco Germicidal Cleaner is a concentrate with multipurpose germicidal uses. It effectively reduces the transmission of most disease causing organisms by aseptically cleaning inanimate objects which may harbor such harmful contaminants. ESCO GERMICIDAL CLEANER is free rinsing and since it does not leave a film is recommended for operating room cleaning. ESCO GERMICIDAL CLEANER must be diluted for use. It forms a clear solution in hard or soft water.

### DILUTION TABLE

1 gal. water to 2.5 oz. Germicidal Cleaner. If increased detergency is desired, the concentration may be increased. ESCO GERMICIDAL CLEANER is harmless to tile, resilient type flooring and terrazzo.

### CAUTION

## KEEP OUT OF REACH OF CHILDREN

ESCO GERMICIDAL CLEANER is harmful if swallowed. Should this occur, an immediate emetic of baking soda should be given. Call a physician immediately. Avoid skin or eye contact. Should contact occur, wash areas with large quantities of flowing water.

Gallon(s)
