Product Weight per Gallon — 9.04 lbs.

DIRECTIONS FOR USE

Slimex 14 is used industrially for controlling the growth of bacteria. Specifically, it controls the growth of slime forming organisms in paper mills. It is recommended for slime control in white water, the preservation of pulp stock and the preservation of coating preparations for paper and paperboard. The dosage rate varies between 0.4 and 2.0 pounds (6 - 28 fl. ozs. of product) per ton of pulp or paper produced depending on mill conditions. Slimex 14 may be added anywhere in the system prior to the sheet forming area or in the recirculating white water system.

Slimex 14 may be used as a preservative for coating preparations used in the manufacture and coating of paper and paperboard intended for food contact applications in accordance with Food Additive Regulation 121.2529. Dosage rates vary with the degree of preservation required. In the case of slurries of starches, latices, protein, glue, alum, titanium dioxide, clay and other pigments or in blends thereof, typical Slimex 14 usage is in the 250-500 ppm (32 - 65 fl. ozs. of product per 1000 gallons) range.

Slimex 14 is added to the slurry make-up water in batch preparation systems, or directly to the slurry, prior to the holding tank, on continuous make-up systems.

WARNING Keep out of reach of children

Harmful if swallowed or absorbed through the skin. May cause irritation or eye injury. Avoid contact with skin, eyes and clothing. Wear rubber gloves and goggles when handling material. Avoid chalation.

In case of contact, immediately remove all contaminated clothing and flush skin or eyes with plenty of water for at least 15 minutes; for eyes, get medical attention. In case of swallowing Slimex 14, obtain medical attention.

Keep container closed when not in use.

For industrial use only.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.
