## SLIMEX<sup>®</sup> 16 SLIMICIDE

### COMPOSITION

ACTIVE INGREDIENTS	22
(Nabam) Disodium ethylene bisdithiocarbamate	
INERT INGREDIENTS	78
Total	100

### DIRECTIONS FOR USE

Slimex No. 16 is used industrially for controlling the growth of bacteria and fungi. Specifically, it controls the growth of slime forming organisms in paper mills. It is recommended for slime control in white water and the preservation of pulp stock. The dosage rate varies between 0.4 and 2.0 pounds per ton of pulp or paper produced depending on mill conditions. Detailed information on application procedures will be furnished on request.

**CAUTION: Keep out of reach of children.** May cause skin irritation. Avoid contact with skin and eyes. In case of contact, flush with plenty of water. For eyes, get medical attention. Harmful if swallowed. Treated water may be harmful to fish and other aquatic life.
