ROEBIC
K-77 Root Killer

ROEBIC Root Killer kills existing roots in pipes. Retreatments at 6 to 12 month intervals may be necessary to control new or abnormally heavy root intrusion. Works year round without harming surrounding trees, ground cover or natural bacteria content of septic tanks and cesspools. Safe for all plumbing and plastic pipes.

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

1. Use at night before retiring.
2. Pour 1/3 of bottle into toilet bowl and flush. Immediately repeat this step until all of the product has been flushed into the sewer pipe. For low-flow toilets, additional flushings may be required to completely remove Roebic Root Killer crystals from the toilet bowl to the sewer pipe. You may also add contents directly to the septic tank drainfield through the distribution box. Add sufficient water to carry crystals to root growth in pipes.
3. Do not apply Root Killer through tub or sink drains
