

are involved.

Consult State Agricultural Experiment Station and Extension Service
Specialists for additional information concerning unusual local problems
involving the use of this material.

This material is extremely toxic and should be handled only by persons properly
trained in the use of this material. It is formulated for direct application to
plants. Apply with a spray nozzle, preferably a fine mist, low volume ground
nozzle or similar device.

Apply to foliage and soil. Do not contribute any body of water nor
apply to areas not specified on the label.

Do not apply directly to water. If you are using other pollinating insects are active.

Persons applying treated plants within 24 hours after application should wear

DIAGNOSIS OF USE

The dosage rates given below are for mixtures with water to provide a minimum
volume of 1 to 3 gallons of dilute spray per acre.

CONTROL: For control of aphids, leafhoppers, beet beetles, fall armyworm,
cutworms, grasshoppers, wireworms, thrips - Use 1/3 to 2/3 pint per acre.

For control of bollworm, cabbage looper, cutworm, sawfly species of spider mite -
Use 1/3 to 1/2 gallon per acre.

Apply at 3 to 5 day intervals as necessary to secure control.

Do not apply within 5 days of harvest. Do not use on high yields or
on plants that are heavily laden with fruit or other parts of the crop.

PREVENTION: Do not use on plants that are heavily laden with fruit or other parts of the crop.
Do not use on plants that are heavily laden with fruit or other parts of the crop.
Do not use on plants that are heavily laden with fruit or other parts of the crop.

PREVENTION: Do not use on plants that are heavily laden with fruit or other parts of the crop.
Do not use on plants that are heavily laden with fruit or other parts of the crop.
Do not use on plants that are heavily laden with fruit or other parts of the crop.

Do not use on plants that are heavily laden with fruit or other parts of the crop.
Do not use on plants that are heavily laden with fruit or other parts of the crop.
Do not use on plants that are heavily laden with fruit or other parts of the crop.

Do not use on plants that are heavily laden with fruit or other parts of the crop.
