## DIRECTIONS FOR USE

FOR HOUSEHOLD USE ONLY

Shake can well before spraying.

Hold container upright.

**To Kill Flies, Mosquitoes, Flying Moths and Gnats:** Close all doors and windows and direct spray upward into center of room with a slow, sweeping motion. Spray 5 to 10 seconds for average room (1,000 cu. ft.) in open area three feet from surfaces. Keep room closed for 10 minutes after spraying. Ventilate room thoroughly before re-entry. Before spraying, cover exposed food and utensils.

**To Kill Roaches, Waterbugs, Crickets, and Ants:** Spray baseboards, cracks, crevices, and areas and openings around pipes and other hidden areas, within the insects' range. Spray wall, ceiling, and door surfaces, under windows and door casings, other locations. Repeat as necessary for control.

Contents under pressure. Never let container be heated, radiated or placed where temperature will exceed 120 F., as it may cause it to burst. Never incinerate container or throw it or its contents in fire. May stain painted surfaces and fabrics. Do not use on children.
