KILLS CRAWLING INSECTS

Crawling insects: ROACHES, SILVER-FISH, WATERBUGS, FLEAS, ANTS—
Spray directly on insects. Spray thoroughly, working the spray into cracks, crevices, behind sink, stove, cabinets, refrigerator and damp, dark hiding places. FLEAS—Also treat rugs, floors and animal quarters. Replace animal bedding after treatment. ANTS—Also spray ant trails, areas around door sills and window frames where pests enter the premises. Repeated applications necessary. SILVERFISH—Also spray around bookcases, shelves, and in storage areas. Repeat as needed. Close room. Leave for 15 minutes. BEDBUGS—Spray thoroughly bed springs, mattress and frame, all seams and cracks in bed. Spray cracks in floor, baseboards, walls of room. Air room before occupancy.

CAUTION: Keep spray nozzle at least 3 feet from surfaces to avoid possible staining. Never place container on stove, radiators or stove where temperature will exceed 120 degrees F. Do not puncture or incinerate can. Keep out of reach of children.

Use in food processing plants only when plant is not in operation. All food processing surfaces should be covered or thoroughly cleaned before
