MAY IRRITATE SKIN AND EYES. SEE BACK PANEL FOR CAUTIONS.

NET 1 GALLON

**FOR REMOVING STAINS  
INK, COFFEE, FRUIT, TEA, GRASS,  
MILDEW, SCORCH, ETC.**

Use only on white or color-fast cottons or linens. Do not use on silk or wool. Soak in cold water for 10 to 15 minutes and then wash out any starch or dressing and rinse. Add two tablespoonfuls of bleach to each quart of cold water, mix thoroughly, and immerse article completely for 10 to 15 minutes. Rinse well in clear water. For scorch same as above. Any trace of scorch remaining usually disappears when fabric is dried in the sunlight. Repeat process if necessary. After removing some inks by the above method, the remaining rust spots can be removed with lemon juice or vinegar. Then rinse thoroughly in clear water.

**AS A DISINFECTANT AND  
DEODORANT**

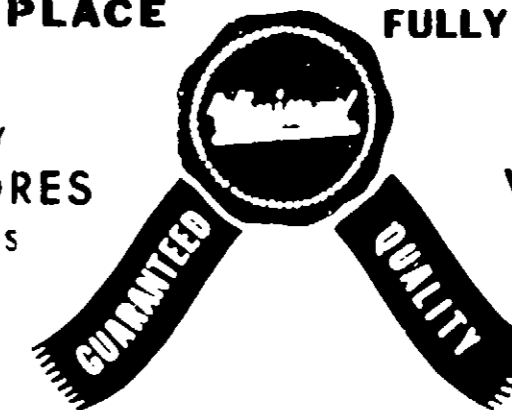

**SERVES MANY HOUSEHOLD AND  
PERSONAL NEEDS**

To disinfect sanitary ware, metal, enameled metal and vitrified cooking utensils, crockery, dishes and glassware, woodenware, thermos bottles, fruit jars, shower floors and linoleum, wash thoroughly, the entire surface to be disinfected with a good detergent and water and when clean rinse thoroughly with clear water. Then apply a solution of three tablespoonfuls of bleach to each quart of cold water, making sure that the disinfecting solution covers the entire surface to be disinfected for five minutes, then rinse in clear water and dry.

**Use on white and fast colors only**

**KEEP IN A COOL PLACE**

**FOR LAUNDRY  
BLEACHES CLOTHES WHITE**

To deodorize vitrified and enameled sanitary ware, enameled refrigerators and other surfaces, oil cloth, linoleum, tile, wooden ware, garbage cans, sick room utensils, wash thoroughly with a good detergent water and rinse thoroughly. Then apply a solution of three tablespoonfuls of bleach to each quart of water to the entire surface to be deodorized, make sure that the deodorizing solution covers the entire surface to be disinfected for five minutes, then rinse in clear water and dry. Repeat if necessary.

Wash clothes as usual and rinse once. Then add one tablespoonful of bleach to each gallon of your soapy rinse water, stir thoroughly and then immerse the articles to be bleached in the rinse water for ten minutes. Then rinse several times. Use only on white and color linen and cotton goods. Do not use on silk or wool.

**FOR SWIMMING AND WADING  
POOLS**

In swimming pools use one pint of Bleach for every 3,000 gallons of new water. Bleach should be diluted when added to pool water if not added through a chlorinator. Bleach should be added daily (one pint for every 3,000 gallons). In wading pools use one cup for every 100 gallons of water and replenish daily.

Water should be frequently tested with a suitable chlorine test kit. Add Bleach as necessary to maintain a chlorine content of 0.5 to 1.0 parts per million at all times.

**FOLLOW ABOVE INSTRUCTIONS CAREFULLY - DO NOT USE ON SILK OR WOOL**

**AVOID CONTACT  
WITH SKIN AND EYES.  
HARMFUL  
IF SWALLOWED.**
