

### PINE OIL DISINFECTANT:

Highly refined oil of pine concentrate which readily mixes with water to form a snow-white emulsion. Its powerful solvent and penetrating action enables it to clean as well as disinfect. Does not injure wood, tiles, porcelain or metals.

**PHENOL COEFFICIENT 5 (A.O. A. C. Method)**

### DISINFECTING:

For disinfection of homes, sickrooms, hotels, schools, industrial and public buildings, use one part to 100 parts water. Leaves a pleasant pine odor. For bathroom floors, tubs, latrines, shower stalls, garbage cans, sinks and drains add  $\frac{1}{2}$  cup concentrate to 12 parts water to which has been added  $\frac{3}{4}$  of the usual amount of soap.

### SANITATION:

For stables, kennels and fur farm buildings and equipment—3 to 4 ounces to a gallon of water and scrub or spray. Objectional odors are removed.

### DEODORANT:

As a deodorant in toilets — add a few drops full strength to the water in the bowl. — For damp cellars, closets, attics, etc., use 3 to 4 tablespoons of Pine Oil Disinfectant to one gallon of water.

## PINE OIL DISINFECTANT

### CLEANS-DISINFECTS-DEODORIZES

**CAUTION: KEEP OUT OF REACH OF CHILDREN.**

**SEE RIGHT PANEL FOR OTHER PRECAUTIONS.**

ACTIVE INGREDIENTS	90.7%
Steam Distilled Pine Oil	80%
Soap	10.7%
INERT INGREDIENTS (water)	9.3%

128 FL. OZ. (1 GAL.)

### CAUTION: KEEP AWAY FROM CHILDREN

Harmful if taken internally. If swallowed, do not induce vomiting. Vomiting may be harmful. Consult physician. Keep out of eyes. If contact occurs wash eyes immediately with water. Avoid contamination of food. Contains pine oil. RINSE EMPTY CONTAINER THOROUGHLY WITH WATER AND DISCARD IT.

### HOUSEHOLD CLEANING:

For cleaning and scrubbing floors, woodwork, tile, marble, painted surfaces, venetian blinds, linoleum — add  $\frac{1}{2}$  cup of concentrate to 12 quarts to which has been added  $\frac{3}{4}$  of the usual amount of soap. Neutralizes offensive odors.

### LAUNDERING:

To the average size tub or washing machine (holding about 15 gallons of water) add  $\frac{1}{2}$  cup of Pine Oil Disinfectant. Dissolves grease and grime from heavy duty work clothes. — Makes white clothes whiter and colored clothes brighter. For spots and stains — just dampen soiled area with Pine Oil Disinfectant, full strength, then put in tub or washing machine with rest of clothes. Diapers — when soaking diapers, add 4 tablespoons to a gallon of water; add half a cup to tub or washing machine when washing.
