UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

APR 22 1998

Mr. Edward G. Jordan, Ph.D.  
BASF Corporation  
P.O. Box 13528  
Research Triangle Park, NC 27709-3528

Dear Dr. Jordan:

SUBJECT: Supplemental Labeling - Tank Mix with Roundup® Ultra Herbicide  
for Use in Roundup Ready® Soybeans  
Basagran® Herbicide  
EPA Registration Number: 7969-45  
Your Application Dated April 6, 1998

The supplemental labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided you make the following change:

- 1. Under "Specific Restrictions and Limitations" add the following statements:

"Always read and follow all label directions when using any pesticide alone or in tank mix combinations. The most restrictive labeling applies when using a tank mix."

A stamped copy is enclosed for your records. Submit one copy of your final printed labeling before you release the product for shipment.

Sincerely yours,

Joanne I. Miller  
Product Manager (23)  
Herbicide Branch  
Registration Division (7505C)

# Basagran<sup>®</sup>

herbicide

## Tank mix with Roundup<sup>®</sup> Ultra herbicide for use in Roundup Ready<sup>®</sup> soybeans

EPA Reg. No 7969-45

All applicable directions, restrictions, precautions and **Conditions of Sale and Warranty** on the EPA-registered label are to be followed. This labeling must be in the possession of the user at the time of application.

### Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

### Basagran + Roundup Ultra in Roundup Ready<sup>®</sup> Soybeans

**Basagran:** 1-2 pints  
**Roundup Ultra:** 1-2 pints  
**AMS:** 17 pounds/100 gallons  
Basagran can be tank mixed with Roundup Ultra for postemergent applications to soybeans with the Roundup Ready gene. This tank mix may be used only over the top of soybean varieties that are designated as soybeans with the Roundup Ready gene. Severe injury or death of soybeans will result if any soybean varieties not designated as having the Roundup Ready gene are sprayed with this product. Avoid contact with foliage, green stems, or fruit crops, or any desirable plants and trees, other than soybeans with the Roundup Ready gene as severe injury or destruction will result.  
A Basagran plus Roundup Ultra tank mix application in Roundup Ready soybeans will provide improved postemergence control of many broadleaf weeds such as Canada thistle, giant ragweed, smartweed, velvetleaf, and yellow nutsedge as well as add control of broadleaf and grass weed species not on the Basagran label.

### Specific Restrictions and Limitations

Do not allow the Basagran plus Roundup Ultra to mist, drip, drift or splash onto desirable vegetation as minute quantities of the tank mix can cause severe damage or destruction to the crop, plants or other areas on which treatment was not intended. The likelihood of injury occurring from drift of this product is greatest when winds are gusty or in excess of 5 miles per hour. Even under lesser wind velocities, avoid conditions that allow spray drift to occur such as combinations of spray pressure and nozzle type that will result in fine particles (mist) that are likely to drift.
