

THE FOLLOWING PLANTS ARE TOLERANT TO POAST:

Azalea

Rhododendron spp.

Cotoneaster

Cotoneaster dammerii

Dogwood

Flowering, *Cornus florida*

Euonymus

Euonymus kiautschovica

Fir

Frasier, *Abies fraseri*

Forsythia

Forsythia viridissima

Holly

Ilex crenata

Juniper

Juniperus horizontalis

Magnolia

Southern, *Magnolia grandiflora*

Maple

Red, *Acer rubrum*

Oak

Willow, *Quercus phellos*

Periwinkle

Vinca minor

Pine

Eastern White, *Pinus strobus*

Loblolly, *Pinus taeda*

Mugho, *Pinus mugho*

Virginia, *Pinus virginiana*

Poplar

Populus alba

Spruce

Norway, *Picea abies*

White, *Picea glauca*

NOTICE TO USER

It is impossible to test every species and variety of ornamental or nursery plants. Plant tolerance to Poast has been found to be acceptable in the above specified genera, species, and varieties. Neither the manufacturer nor the seller has determined whether or not Poast can safely be used on plants not specified on this label. The professional user should determine if Poast can be used safely prior to use.

TIMING OF APPLICATION

Apply Poast Herbicide postemergence to actively growing grasses when they are within the recommended stage of growth given in the rate table.

Do not make applications to grasses under stress, such as stress due to lack of moisture or herbicide injury, as unsatisfactory control will result.

WATER VOLUME AND SPRAY PRESSURE

Apply Poast as follows to ensure thorough spray coverage of foliage.

Ground Equipment: Use a minimum of 20 gallons of water per acre with 40 psi pressure. Increase water volume to at least 40 gallons per acre and increase pressure to at least 60 psi when needed to ensure thorough grass coverage.

Use standard high pressure pesticide hollow cone or flat fan nozzles.

Do not use flood or whirl chamber nozzles.

For Spot Treatment see section entitled, "Spot or Small Area Treatment
ADDITION OF OIL CONCENTRATE

ALWAYS add a nonphytotoxic oil concentrate to the spray solution at 2 pints per acre for ground applications. The oil concentrate must contain only EPA exempt ingredients. Since the exact composition of suitable products will vary, see your supplier for a list of oil concentrates recommended by BASF Wyandotte Corporation.
