of Pistachio Directions
Poast® Herbicide
EPA Reg. No. 7969-58
Application Dated May 15, 2007

Dear Ms. Sanson:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

NOTIFICATION
JUN 26 2007

**Subject: Poast® Herbicide, EPA Registration No. 7969-58
Notification of Label Statements on EPA-Approved Supplemental Labeling**

Dear Sir/Madam:

On March 15 2007, EPA approved supplemental labeling for use of Poast® Herbicide (EPA Reg. No. 7969-58) in borage, buckwheat, dill, okra, and root vegetables. A copy of the stamped label is attached for reference. The purpose of this notification is to include/modify the following pertinent information on this label:

- 1) The ingredient statement has been added to page 1.
- 2) On page 1, the following statement has been removed: "Poast should only be applied as a directed spray to the grove floor for bearing pistachio trees." The pistachio directions for use are not included in this label and thus this statement is out of place. We believe this statement had inadvertently carried over from a previous Poast supplemental label.
- 3) The "Conditions of Sale and Warranty" section has been added on page 3, matching the same statements found on the EPA-approved master label for Poast.

Enclosed are one copy of amended supplemental labeling, reflecting the changes described above, and a completed EPA 8570-1 Registration Application form.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under section 12 and 14 of FIFRA.

JUN 26 2007

Poast[®]

herbicide

Supplemental Labeling

For use in Borage, Buckwheat, Dill, Okra and Root Vegetables

EPA Reg. No. 7969-58

Active Ingredient:*

Sethoxydim: 2-[1-(ethoxyimino)butyl]-5-[2-(ethylthio)propyl]-3-hydroxy-2-cyclohexen-1-one* 18.0%

Other Ingredients: 82.0%

Total: 100.0%

* Equivalent to 1.5 pounds of sethoxydim per gallon.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. This labeling must be in the possession of the user at the time of application.

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **DO NOT** apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

GENERAL INFORMATION

Poast[®] herbicide may be applied to the crops listed in **Table 1**. Apply to actively growing grasses. In irrigated areas, it may be necessary to irrigate prior to treatment with **Poast** to ensure weeds are growing actively. See **Poast** container label for complete list of annual and perennial grasses controlled with use of this herbicide.

Always adjust spray pressure, spray volume and height of spray boom to ensure thorough coverage of grasses to be controlled.

For maximum use rate per application and per season and for the minimum time from application to harvest, see **Table 1**.

RESTRICTIONS AND LIMITATIONS

DO NOT plant other crops to be harvested for 30 days after application unless **Poast** is registered for use on that crop.

Avoid all direct or indirect contact with any desired grass crop unless otherwise recommended on the **Poast** label.

DO NOT apply to grasses or crops under stress such as stress due to lack of moisture, hail damage, flooding, herbicide injury, mechanical injury, or widely fluctuating temperatures, as unsatisfactory control may result. Irrigation may be needed.

DO NOT apply to crops that show injury (leaf phytotoxicity or plant stunting) produced by any other prior herbicide applications, because this injury may be enhanced or prolonged.

Physical incompatibility, reduced weed control, or crop injury may result from mixing **Poast** with other pesticides (fungicides, herbicides, insecticides, or miticides), additives, or fertilizers. BASF does not recommend using tank mixes other than those listed on BASF labeling. Local agricultural authorities may be a source of information when using other than BASF recommended tank mixes.

6/17

Table 1. Crop-Specific Restrictions and Limitations for Poast® herbicide

Crop	Minimum Time From Application to Harvest (PHI)	Maximum Rate Per Acre per Application	Maximum Rate Per Acre per Season	Livestock Grazing or Feeding
Borage	23 days	2.5 pints	5 pints	n/a
Buckwheat	21 days	2.5 pints	5 pints	n/a
Dill	14 days	2.5 pints	5 pints	n/a
Okra	14 days	1.5 pints	5.5 pints	n/a
Root vegetables (except sugar beet) subgroup: Edible burdock Celeriac Chervil, turnip-rooted Chicory Ginseng Oriental radish Parsley, turnip-rooted Parsnip Radish Rutabaga Salsify Black salsify Spanish salsify Skirret Turnip	14 days	2.5 pints	2.5 pints	n/a
Beet, garden	60 days	2.5 pints	5 pints	n/a
Carrot	30 days	2.5 pints	5 pints	Yes
Horseradish	60 days	2.5 pints	5 pints	n/a

n/a = not applicable

Aerial application is permitted for all labeled crops.

Conditions of Sale and Warranty

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.

Poast is a registered trademark of BASF.

**Subject: Poast® Herbicide, EPA Registration No. 7969-58
Notification of Label Statements on EPA-Approved Supplemental Labeling**

Dear Sir/Madam:

On September 30, 2003, EPA approved supplemental labeling for use of Poast® Herbicide (EPA Reg. No. 7969-58) in Poast Protected sweet corn. A copy of the stamped label is attached for reference. The purpose of this notification is to include/modify the following pertinent information on this label:

- 1) The ingredient statement has been added to page 1.
- 2) The "Conditions of Sale and Warranty" section has been added on page 2, matching the same statements found on the EPA-approved master label for Poast.

Enclosed are one copy of amended supplemental labeling, reflecting the changes described above, and a completed EPA 8570-1 Registration Application form.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under section 12 and 14 of FIFRA.

Thank you for your attention to this matter. If you have any questions or need further information, please contact me directly at (919) 547-2983, or by e-mail at sansonc@basf.com.

Poast[®]

herbicide

Supplemental Labeling

For use in Poast Protected[®] Sweet Corn

EPA Reg. No. 7969-58

Active Ingredient:*

sethoxydim: 2-[1-(ethoxyimino)butyl]-5-[2-(ethylthio)propyl]-3-hydroxy-2-cyclohexen-1-one* 18.0%

Other Ingredients: 82.0%

Total: 100.0%

* Equivalent to 1.5 pounds of sethoxydim per gallon.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. This labeling must be in the possession of the user at the time of application.

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **DO NOT** apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

General Information

Poast[®] herbicide may be applied postemergence (over-the-top) to control annual and perennial grass weeds in **Poast Protected[®] sweet corn** or sweet corn grown for **Poast Protected** seed. In irrigated areas, it may be necessary to irrigate prior to treatment with **Poast** to ensure weeds are growing actively. See **Poast** label for complete list of annual and perennial grasses controlled with use of this herbicide. Always adjust spray pressure, spray volume and height of spray boom to ensure thorough coverage of grasses to be controlled.

Crop Tolerance

Only **Poast Protected** corn hybrids are tolerant to **Poast** applications. Severe crop injury will occur to sweet corn hybrids not labeled as **Poast Protected sweet corn**.

Restrictions and Limitations

Applications of **Poast** in **Poast Protected sweet corn** may be made until the onset of pollen shed. **DO NOT** apply **Poast** after pollination occurs.

A second application of **Poast** in **Poast Protected sweet corn** may be made 10 days or later following the first application.

For maximum use rate per application and per season and for the minimum time from application to harvest, see **Table 1**.

DO NOT plant other crops to be harvested for 30 days after application unless **Poast** is registered for use on that crop.

DO NOT apply to grasses or crops under stress such as stress due to lack of moisture, hail damage, flooding, herbicide injury, mechanical injury, or widely fluctuating temperatures, as unsatisfactory control may result. Irrigation may be needed.

III. Tank Mixtures

Poast may be applied in a tank mix with one or more of the following herbicides:

- Atrazine
- **Basagran[®]**
- **Frontier[®]**
- **Guardsman[®]**
- **Outlook[®]**
- **Laddok[®] S-12**

5/5

Table 1. Use of Poast® herbicide in Poast Protected® Sweet Corn Hybrids - Restrictions and Limitations

Minimum Time From Application to Harvest (PHI)	30 days (fresh sweet corn or forage/silage) 45 days (grain and fodder)
Maximum Rate Per Acre Per Application	1.5 pints
Maximum Rate Per Acre Per Season	3.0 pints
Livestock feeding or grazing	Yes
Aircraft Application	Yes

Conditions of Sale and Warranty

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.

Basagran, Frontier, Guardsman, Outlook, Poast and Poast Protected are registered trademarks of BASF.

NOTIFICATION

JUN 26 2007

**Subject: Poast® Herbicide, EPA Registration No. 7969-58
Notification of Label Statements on EPA-Approved Supplemental Labeling**

Dear Sir/Madam:

On April 11, 2001, EPA approved supplemental labeling for use of Poast® Herbicide (EPA Reg. No. 7969-58) in tall fescue growth suppression to aid in the establishment of forbs or other grasses. A copy of the EPA-stamped label is attached for reference. The purpose of this notification is to include/modify the following pertinent information on this label:

- 1) The ingredient statement has been added to page 1.
- 2) On page 1, the following statement has been removed: "Poast should only be applied as a directed spray to the grove floor for bearing pistachio tress." The pistachio directions for use are not included in this label and thus this statement is out of place. We believe this statement had inadvertently carried over from a previous Poast supplemental label.
- 3) The "Conditions of Sale and Warranty" section has been added on page 2, matching the same statements found on the EPA-approved master label for Poast.

Enclosed are one copy of amended supplemental labeling, reflecting the changes described above, and a completed EPA 8570-1 Registration Application form.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under section 12 and 14 of FIFRA.

Poast[®]

herbicide

**Supplemental
Labeling**

For Tall Fescue Growth Suppression to Aid in the Establishment of Forbs or Other Grasses

EPA Reg. No. 7969-58

Active Ingredient:*

sethoxydim: 2-[1-(ethoxyimino)butyl]-5-[2-(ethylthio)propyl]-3-hydroxy-2-cyclohexen-1-one* 18.0%

Other Ingredients: 82.0%

Total: 100.0%

* Equivalent to 1.5 pounds of sethoxydim per gallon.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. This labeling must be in the possession of the user at the time of application.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **DO NOT** apply this product in a way that will contact workers or other persons; either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

APPLICATION INSTRUCTIONS

Apply **Poast[®] herbicide** to actively growing tall fescue after it has 4 to 6 inches of new growth, before the emergence of seedheads and before conifer bud break. Applications made from July 1 to mid-August may be less effective, especially if day temperatures reach 90° F. Tall fescue must be 1-year old before the first application of **Poast**.

Adequate coverage of the leaf surface is necessary for absorption of this herbicide. Thus, for optimum control, **DO NOT** mow tall fescue turf for 30 days before or 14 days after applying **Poast**.

Rate: Apply 1.0 to 1.25 pints of **Poast** per acre. For greater fescue suppression, up to 2.5 pints of **Poast** per acre can be used. Because of environmental differences at application and growth, differences of tall fescue control may exceed or fall short of that desired.

Begin treating crops with **Poast** at the minimum recommended rate and adjust rates as local conditions and experience dictate. Additional applications may be made if extended growth suppression is desired.

Additives

Always add two pints of oil concentrate per acre.

RESTRICTIONS AND LIMITATIONS

Avoid all direct or indirect contact with any desired grass crop unless otherwise recommended on the **Poast** label.

DO NOT apply to grasses or crops under stress such as stress due to lack of moisture, hail damage, flooding, herbicide injury, mechanical injury, or widely fluctuating temperatures, as unsatisfactory control may result. Irrigation may be needed.

DO NOT apply to crops that show injury (leaf phytotoxicity or plant stunting) produced by any other prior herbicide applications, because this injury may be enhanced or prolonged.

Physical incompatibility, reduced weed control, or crop injury may result from mixing **Poast** with other pesticides (fungicides, herbicides, insecticides, or miticides), additives, or fertilizers. BASF does not recommend using tank mixes other than those listed on BASF labeling. Local agricultural authorities may be a source of information when using other than BASF recommended tank mixes.

6/6

Conditions of Sale and Warranty

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.

SUBJECT: Application for Pesticide Notification – Ingredient Statement, Warranty, Removal
of Pistachio Directions
Poast® Herbicide
EPA Reg. No. 7969-58
Application Dated May 15, 2007

Dear Ms. Sanson:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

NOTIFICATION

JUN 26 2007

**Subject: Poast® Herbicide, EPA Registration No. 7969-58
Notification of Label Statements on EPA-Approved Supplemental Labeling**

Dear Sir/Madam:

On September 30, 2003, EPA approved supplemental labeling for use of Poast® Herbicide (EPA Reg. No. 7969-58) in pistachio, safflower, lingongberry, juneberry and salal. A copy of the stamped label is attached for reference. The purpose of this notification is to include/modify the following pertinent information on this label:

- 1) The ingredient statement has been added to page 1.
- 2) Since BASF is not including the pistachio use on the supplemental label for commercial distribution, the statement "Poast should only be applied as a directed spray to the grove floor for bearing pistachio tress" has been removed.
- 3) The "Conditions of Sale and Warranty" section has been added on page 2, matching the same statements found on the EPA-approved master label for Poast..

Enclosed are one copy of amended supplemental labeling, reflecting the changes described above, and a completed EPA 8570-1 Registration Application form.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under section 12 and 14 of FIFRA.

Poast[®]

herbicide

Supplemental Labeling

For use in Safflower, Lingonberry, Juneberry and Salal

EPA Reg. No. 7969-58

Active Ingredient:*

Sethoxydim: 2-[1-(ethoxyimino)butyl]-5-[2-(ethylthio)propyl]-3-hydroxy-2-cyclohexen-1-one* 18.0%

Other Ingredients: 82.0%

Total: 100.0%

* Equivalent to 1.5 pounds of sethoxydim per gallon.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. This labeling must be in the possession of the user at the time of application.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **DO NOT** apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

I. GENERAL INFORMATION

Poast[®] herbicide may be applied to the crops listed in **Table 1**. Apply to actively growing grasses. In irrigated areas, it may be necessary to irrigate prior to treatment with **Poast** to ensure weeds are growing actively. See **Poast** label for complete list of annual and perennial grasses controlled with use of this herbicide.

Always adjust spray pressure, spray volume and height of spray boom to ensure thorough coverage of grasses to be controlled.

For maximum use rate per application and per season and for the minimum time from application to harvest, see **Table 1**.

II. RESTRICTIONS AND LIMITATIONS

DO NOT plant other crops to be harvested for 30 days after application unless **Poast** is registered for use on that crop.

Avoid all direct or indirect contact with any desired grass crop unless otherwise recommended on the **Poast** label.

DO NOT apply to grasses or crops under stress such as stress due to lack of moisture, hail damage, flooding, herbicide injury, mechanical injury, or widely fluctuating temperatures, as unsatisfactory control may result. Irrigation may be needed.

DO NOT apply to crops that show injury (leaf phytotoxicity or plant stunting) produced by any other prior herbicide applications, because this injury may be enhanced or prolonged.

Physical incompatibility, reduced weed control, or crop injury may result from mixing **Poast** with other pesticides (fungicides, herbicides, insecticides, or miticides), additives, or fertilizers. BASF does not recommend using tank mixes other than those listed on BASF labeling. Local agricultural authorities may be a source of information when using other than BASF recommended tank mixes.
