

APR 18 2000

Laura A. Sears
BASF Corporation
26 Davis Drive
P.O. Box 13528
Research Triangle Park, NC 27709-3528

Dear Ms. Sears:

Subject: Add Lay-By Application
Frontier 6.0 Herbicide
EPA Registration No. 7969-147
Outlook Herbicide
EPA Registration No. 7969-156 /
~~Your Submission Dated March 31, 2000~~

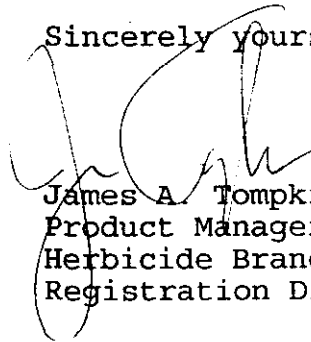

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you:

1. Submit/cite all data required for registration/-reregistration of your product under FIFRA section 3(c)(5) or 4(a) when the Agency requires all registrants of similar products to submit such data.

2. Submit one (1) copy of your final printed labeling before you release the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

James A. Tompkins
Product Manager (25)
Herbicide Branch
Registration Division (7505C)

Lay-by Applications for Use in Field Corn, Seed Corn and Popcorn

EPA Reg. No 7969-156

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

All applicable directions, restrictions, precautions and **Conditions of Sale and Warranty** on the EPA-registered label are to be followed. This labeling must be in the possession of the user at the time of application.

**ACCEPTED
with COMMENTS
In EPA Letter Dated:**

APR 18 2000

**Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
7969-156**

General Information

Outlook may be used in lay-by applications for control of late season germinating weeds in corn (field, seed, pop). Lay-by applications are made when corn is greater than 8 inches tall but before it is greater than 36 inches tall. Applications must be made before weeds emerge from soil or in combination with a herbicide(s) and/or cultivation that controls emerged weeds. For best performance direct applications beneath the corn canopy. For specific use rates by soil type, refer to the **Outlook** container Directions For Use label. Lay-by applications may be made to soil previously treated with **Outlook** but must not exceed a total combined rate of 21 fluid ounces of **Outlook** per acre.

Corn may be grazed or fed to livestock 40 days or more after lay-by application of **Outlook**. Do not make lay-by applications of **Outlook** to sweet corn.
