RE: Amendment Dated 10/3/08
K-1 Chemical Prohexadione Calcium Manufacturing Use Product
EPA Reg. No. 7969-190

Dear Mr. Jordan:

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, to provide a revised basic CSF dated 9/8/08, and a revised label which increases the percent active ingredient from 91% to 94%, adds the me-too use "grass grown for seed" from EPA Reg. No. 7969-188, and makes changes to the container disposal section and precautionary statements, is acceptable. The revised CSF and label supercede the prior versions.

If you have questions concerning this letter, please contact me at 703-308-9443.

Sincerely,

A handwritten signature in black ink that reads "Tony Kish".

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **Only for formulation into a plant growth regulator for the following uses:** 1) grass grown for seed, apples, peanuts and pears; 2) uses for which U.S. EPA has accepted the required data or citations of data that the formulator has submitted in support of registration; and 3) uses for experimental purposes that are in compliance with U.S. EPA requirements. Consult BASF Corporation before using this product for formulating purposes. Each formulator is responsible for obtaining EPA registration for their end-use product(s). This product may be used to formulate products for any additional uses not listed on the technical label if the formulator, user group, or grower has complied with U.S. EPA data submission requirements regarding the support of such uses.

Storage and Disposal

DO NOT contaminate water, food or feed by storage or disposal.
Pesticide Storage: Store in original container in a well-ventilated area separately from fertilizer, feed and foodstuffs. Avoid cross-contamination with other pesticides. Spillage or leakage should be contained, carefully swept up, and collected for disposal.
Pesticide Disposal: Wastes resulting from the use of this product may be disposed of at an approved waste disposal facility. Excess pesticide or rinsate must be handled and disposed of in accordance with federal, state or local procedures. Improper disposal of excess pesticide, spray mixture, or rinsate, is a violation of federal law. If these wastes cannot be disposed of according to label instructions, contact the state agency responsible for pesticide regulation or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
Container Disposal: (Supersack) Nonrefillable Container: DO NOT reuse or refill this container. Completely empty bag into application equipment; then dispose of empty bag in a sanitary landfill or by incineration, or by other procedures approved by state and local authorities.
