Amy S Dugger-Ronyak Product Registration Manager BASF Corp , Agricultural Products 26 Davis Drive P O Box 13528 Research Triangle Park, NC 27709-3528

Subject Label Amendment—Additional of Beehive Restriction to Front Panel Text Box per Agency Agreement Product Name PTM[™] Insecticide EPA Reg No 7969-241 Application Dated August 10, 2012 Decision Number 468562

Dear Ms Dugger-Ronyak

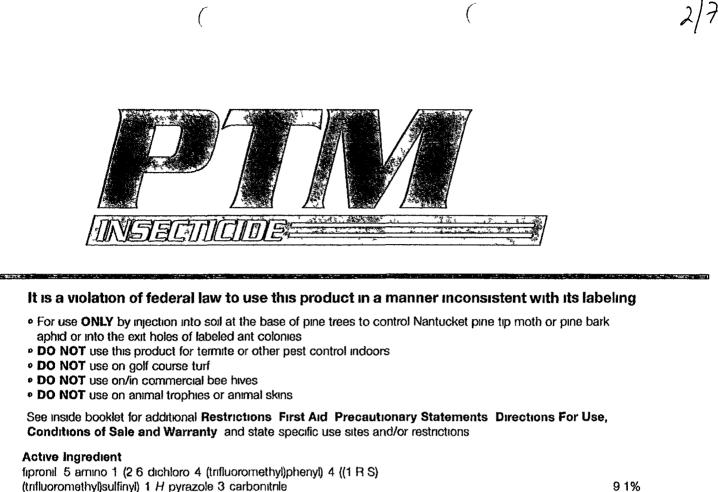

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable A stamped copy of the label is enclosed for your records

If you have any questions, you may contact Clayton Myers at (703) 347-8874 or myers clayton@epa gov

Sincerely,

Richard J Gebken, Product Manager Insecticide Branch Registration Division (7505P)

Enclosure Stamped Label

Other Ingredients 90.9% Total 100.0% One gallon PTM™ Insecticide contains 0.8 lb fipronil

EPA Reg No ______7969-241

FIRST AID				
If swallowed	 Immediately call a poison control center or doctor DO NOT induce vomiting unless told to do so by a poison control center or doctor DO NOT give any liquid to the person DO NOT give anything by mouth to an unconscious person 			
lf on skin or clothing	 Take off contaminated clothing Rinse skin immediately with plenty of water for 15 to 20 minutes Call a poison control center or doctor for treatment advice 			
lf inhaled	 Move person to fresh air If person is not breathing call 911 or an ambulance, then give artificial respiration preferab mouth to mouth if possible Call a poison control center or doctor for treatment advice 			
lf ın eyes	 Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes Remove contact lenses if present after the first 5 minutes then continue rinsing eyes Call a poison control center or doctor for treatment advice 			
	HOTLINE NUMBER			

Have the product container or label with you when calling a poison control center or doctor or going for treatment You may also contact BASF Corporation for emergency medical treatment information 1 800 832 HELP (4357)

NOTE TO PHYSICIAN There is no specific antidote. All treatment should be based on observed signs and symptoms of distress in the patient. Overexposure to materials other than this product may have occurred. In severe cases of overexposure by oral ingestion, lethargy muscle tremors, and in extreme cases possibly convulsions may occur

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION Harmful if swallowed inhaled or absorbed through the skin **DO NOT** breathe vapor or spray mist Avoid contact with skin eyes or clothing

Personal Protective Equipment (PPE)

All pesticide handlers (mixers, loaders, and applica tors) must wear

- Long sleeved shirt and long pants
- Shoes plus socks
- Chemical resistant gloves

Follow the manufacturer s instructions for cleaning and maintaining PPE. If no such instructions for washables exist use detergent and hot water. Keep and wash PPE separately from other laundry

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this products concentrate **DO NOT** reuse them

When handlers use closed systems enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170 240(d)(4 6)) the handler PPE requirements may be reduced or modified as specified in the WPS

USER SAFETY RECOMMENDATIONS

Users should

- Wash thoroughly with soap and water after handling Wash hands before eating drinking chewing gum using tobacco or using the toilet
- Remove clothing/PPE immediately if pesticide gets inside Then wash thoroughly and put on clean clothing
- Remove PPE immediately after handling this product Wash outside of gloves before removing As soon as possible wash thoroughly and change into clean clothing

Environmental Hazards

This pesticide is toxic to birds fish, and aquatic inverte brates **DO NOT** apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark Runoff may be hazardous to estu arine and aquatic organisms in water adjacent to treated areas Care must be taken to avoid runoff **DO NOT** con taminate water by cleaning equipment or disposal of wastes **DO NOT** contaminate water when disposing of equipment washwater or rinsate

Directions For Use

It is a violation of federal law to use this product in a man ner inconsistent with its labeling

PTM™ Insecticide cannot be used to formulate reformulate, or repackage into any other pesticide product without the written permission of BASF Corporation

Read the entire label before using this product

DO NOT apply this product in a way that will contact workers or other persons, either directly or through dnft Only protected handlers may be in the area during application

For any requirements specific to your state or tribe consult the state or tribal agency responsible for pesticide regulation

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard 40 CFR Part 170 This standard contains requirements for the protection of agricultural workers on farms forests nurseries and greenhouses and handlers of agricultural pesticides. It contains requirements for training decontamination noti fication and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on the label about personal protective equip ment and restricted entry interval. The requirements in this box only apply to uses of this product that are cov ered by the Worker Protection Standard

DO NOT enter or allow worker entry into treated areas during the restricted entry interval (REI) of **24 hours**

EXCEPTION If the product is soil injected or soil incorporated the Worker Protection Standard under certain circumstances allows workers to enter the treat ed area if there will be no contact with anything that has been treated

PPE required for early entry to treated areas that is per mitted under the Worker Protection Standard and that involves contact with anything that has been treated such as plants soil or water is

- Overalls
- Shoes plus socks
- · Chemical resistant gloves

STORAGE AND DISPOSAL

DO NOT contaminate water food or feed by storage or disposal

Pesticide Storage

Store unused product in original container only out of reach of children and animals

Pesticide Disposal

Pesticide wastes are acutely hazardous Improper dis posal of excess pesticide is a violation of federal law If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance

(continued)

STORAGE AND DISPOSAL (continued)

Container Handling

Nonrefillable Container DO NOT reuse or refill this container Triple rinse or pressure rinse container (or equivalent) promptly after emptying, then offer for recy cling, if available or reconditioning, if appropriate or puncture and dispose of in a sanitary landfill or by incin eration, or by other procedures approved by state and local authorities

Triple rinse containers small enough to shake (capacity \leq 5 gallons) as follows Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip Fill the container 1/4 full with water and recap Shake for 10 sec onds Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal Drain for 10 seconds after the flow begins to drip Repeat this pro cedure two more times

Pressure rinse as follows Empty the remaining con tents into application equipment or mix tank and continue to drain for 10 seconds after the flow begins to drip Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal Insert pressure rinsing nozzle in the side of the container and rinse at about 40 PSI for at least 30 seconds Drain for 10 seconds after the flow begins to drip

In Case of Emergency

In case of large scale spillage regarding this product, call

- CHEMTREC 1 800 424 9300
- BASF Corporation 1 800 832 HELP (4357)

In case of medical emergency regarding this product call

- Your local doctor for immediate treatment
- · Your local poison control center (hospital)
- BASF Corporation 1 800 832 HELP (4357)

Steps to be taken in case material is released or spilled

- Dike and contain the spill with inert material (sand earth etc.) and transfer liquid and solid diking material to sepa rate containers for disposal
- Remove contaminated clothing and wash affected skin areas with soap and water
- Wash clothing before reuse
- Keep the spill out of all sewers and open bodies of water

Product Information

Apply **PTM™ insecticide** by injection to soil at the base of pine trees or into the exit holes of leaf cutter ant colonies

Use Restrictions

- Make one application per year DO NOT apply more than 21 fl ozs (0 13 lb a) PTM Insecticide per acre per year
- DO NOT apply this product through any kind of irriga tion system
- DO NOT apply within 20 yards (in New York State DO NOT apply within 100 feet or 33 yards) of lakes reservoirs rivers permanent streams, marshes natural ponds estuaries commercial aquaculture facilities or other bodies of water that convey water to these areas Protection of aquatic areas may be enhanced by main taining all or a portion of this buffer in vegetative cover
- DO NOT apply to trees raised for pine nuts
- Apply only as a soil injection DO NOT apply to the soil surface

Dilution Preparation

Before mixing remove oil rust scale, pesticide residues, and foreign matter from application equipment including the strainer Flush with clean water Use 50 mesh screens or equivalent in application system

Fill tank with approximately 1/2 the required volume of water and start agitation if available Pour measured amount of **PTM™ Insecticide** into tank Add remaining water needed to make the final dilution

Shake small handheld or backpack applicator tanks after filling and before each application to ensure that the active ingredient is evenly suspended in the mixture Tank lids must be sufficiently tight before shaking to avoid spillage

Equip applicator tanks too large to manually shake with a sparge tube agitator. Alternative agitator designs may be used if they can adequately cleanse the bottom of the tank and provide sufficient agitation required for product mixing. Pump approximately 10% of the tank capacity per minute back into the tank through the agitator. Agitate to ensure thorough mixing. Periodic agitation of the final dilution is important to keep the active ingredient evenly suspended in the mixture.

Tank mix **PTM Insecticide** in accordance with the most restrictive of label limitations and precautions **DO NOT** exceed label dosage rates This product cannot be mixed with any product whose label contains a prohibition against such mixing lf tank mixes with other products are to be used evaluate tank mix compatibility with **PTM Insecticide** in a small container before mixing larger quantities in the application tank

Pests Controlled

- Leaf cutter ant (Atta texana)
- · Nantucket pine tip moth (Rhyacionia frustrana)
- Pine bark aphid (Cinara spp)

Application

Tip Moth Control in Pine Plantations

Apply a dilution of water and 21 fl ozs per acre **PTM Insecticide** at the time of planting or after planting Divide 21 fl ozs by the total number of target trees to be treated per acre to obtain the amount of **PTM Insecticide** to apply per tree Dilute the required amount of **PTM Insecticide** with water to apply between 0.5 and 1.0 fl oz of total dilution per tree. Spot treat by injecting an amount of dilution at least 3 inches below ground into the rooting zone of each pine seedling

· · ·					
Target Trees/A	PTM™ Insecticide + Water total volume/tree	PTM Insecticide + Water total volume/A	PTM Insecticide	Water	
	fl ozs		(fl ozs each mixed/A)		
400	05	200		179	
	10	400		379	
500 -	05	250		229	
	10	500	21	479	
600	05	300		279	
	10	600		579	

Application Volume based on Target Trees per Acre

(|7

NOTE Use the higher total dilution volume when soil moisture level is low

Leaf Cutter Ant Control in Tree Plantations

Make a 2% dilution of **PTM Insecticide** in water Inject 1 5 fl ozs of the dilution at least 3 inches below ground into each leaf cutter ant exit hole **DO NOT** apply more than 21 fl ozs **PTM Insecticide** per acre

Total Volume (gals)	PTM (fl ozs)	Water (fl ozs)		
1	26	125		
2	52	250		
3	78	375		
4	10 4	500		
5	12 8	625
