from 1 to 10 with 1 indicating the least and 10 indicating the most, reflecting the number of other areas where the firm is increasingly engaged in corporate social responsibility. Areas where the firm is engaged include: community relations, the environment, employee relations, and product safety. The mean score for each area was calculated and then averaged to give an overall score for each firm. The mean score was 4.6, indicating that the average firm is engaged in a moderate and consistent way in each of the four areas of a product life cycle.
