GOPHER GETTER BAIT

POCKET GOPHER

POISON

ANTIDOTE:

If less than ten minutes passed since the poison was taken, give a tablespoonful of salt in a glass of warm water. Have victim lie down in a quiet, darkened room and keep him warm. Call a Physician immediately!

DANGER...CONVULSIVE POISON!
KEEP OUT OF REACH OF CHILDREN

Poisonous if swallowed. Bait should be placed in areas inaccessible to children, pets, wildlife, and domestic animals or in tamper proof bait boxes.

Treated seeds exposed on soil surface may be hazardous to birds and other wildlife. Do not contaminate water by cleaning of equipment, or disposal of wastes. Dispose of excess treated seeds or wastes by burial. Apply this product only as specified on this label.

FOR POCKET GOPHERS

Find underground runway by probing with iron bar or broomstick. Insert one tablespoonful of bait and cover opening securely with piece of sod. Do not permit dirt to sift in and cover bait. Open newly formed mounds (lateral tunnels) and insert one tablespoon of bait with a long handled spoon at the point of junction with the main tunnel. One pound will treat five to eight acres.

NOTICE Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and or handling of this material when such use and or handling is contrary to label instructions.
