**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA Sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA Sec.3(c)(5) when the Agency requires all registrants of similar products to submit such data and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Submit additional pharoah ant efficacy data using 3-4 replicates with 10 queens in each replicate and carpenter ant data in 20 infested houses, within one year from the date of this registration.
3. Submit one year Storage Stability data (830.6317) within 18 months from the date of this registration.
4. Make the following changes to the label:
  - a. **Revise the EPA Registration Number to read, "EPA Reg. No. 8033-97".**
  - b. Delete "other nuisance ants" and "will eliminate" must be replaced by "will control" wherever they appear on the label.
  - c. For acute toxicity category IV, no Precautionary/First Aid statements are required (optional statements) but the "Harmful if swallowed or adsorbed through the skin" and wash after handling" statements (already on the label) are recommended.

Date: **OCT 11 2006**

**What It Controls**

Sweet- and grease-eating ants:

Acrobat, Argentine, big-headed, carpenter, cornfield, crazy, field, ghost, honey, little black, odorous house, pavement, pharaoh, pyramid, rove, thief, velvety tree, and other nuisance ants.

**How to Apply**

Gel should be placed as spots in cracks and crevices. Make many spots or dabs of gel where you see ants foraging and entering structure. Do not place gel in direct sunlight. Gel should not be visible on vertical surfaces; it may drip if exposed to heat.

Recommended spot size (1/4-1/2 gram)

**Indoors for ant control:** Place gel in cracks and crevices in areas where ants are seen or suspected to be active (such as, under sinks, stoves, refrigerators and cabinets, wall voids, cracks and crevices in kitchen, bathroom, under sink, window sills, screen vents, garage, attic, and crawl spaces). Do not place bait in locations that are frequently washed. Do not treat food preparation surfaces. Do not use this product in or on electrical equipment where possibility of a shock hazard exists. Product may stain textiles and clothing.

**Outdoors for ant control:** Place spots near ant colonies and along trails near structures. (For carpenter ant colonies, locate nests and apply gel spots near associated trails.) This bait may be used adjacent to homes, cabins, stores, apartment buildings, restaurants, trailers, and warehouses. Other likely locations for ants and gel placements are points of entry into structure and areas with potential water damage including: eaves, soffits, weep holes, where wires and pipes come into the building structure, trees, stumps, roots, wood decks, fences, planter boxes, woodpiles, landscaping, and railroad ties. Extreme heat or cold, direct sunlight and water may reduce the residual effectiveness.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in a cool, dry area out of reach of children.

**DISPOSAL:** If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
