

DIRECTIONS

1. For ordinary cleaning use 2 ounces per gallon of water. More concentration for difficult to clean surfaces, like floors, walls, woodwork, countertops, etc.
2. For effective disinfection, wet surfaces thoroughly by wiping, mopping, or scrubbing, with 3 1/2 ounces per gallon of water for porous surfaces.
3. For sanitizing surfaces, like floors, walls, woodwork, countertops, etc., wash with 1 to 2 ounces per gallon of water solution.
4. All food contact surfaces must be rinsed with potable water after treatment.
