

# POLY MICROBIOCIDE 1005

## ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate ..... 10.0%

INERT INGREDIENTS ..... 90.0%

This product contains 0.67 lb. of active ingredient per gallon and weighs 6.68 lb. per gallon.

## KEEP OUT OF REACH OF CHILDREN WARNING

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

**STATEMENT OF PRACTICAL TREATMENT:** In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, call a physician immediately. If patient is conscious, induce vomiting by stroking or tickling the patient's throat or by back on patient's tongue. Emetics such as 2 teaspoonsful (10 mL) of ipecac syrup or 1 teaspoonful (5 mL) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit fluid is clear. Then have patient drink plenty of milk, gelatin solution, beaten egg whites, flour and water, or other nonally cereal item. Never induce vomiting or give anything by mouth to an unconscious person.  
*Note to physician:* Probable mucosal damage may compromise gastric lavage.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not apply in marine and/or estuarine of fields. Do not discharge treated effluent into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

in EPA Letter Dated:

8047-43  
OCT 15 1967

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the registered under EPA

Manufactured by:  
Poly Chem, Inc.  
P.O. Box 10026  
Jefferson, LA 70181

EPA REG. NO. 8047-43

EPA EST. NO. 8047-LA-1

NET CONTENTS

## DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Poly Microbiocide 1005** is used in industrial and/or commercial recirculating cooling tower systems and industrial air-washing systems to control microbiological slime. Prior to the use of **Poly Microbiocide 1005** in industrial and/or commercial recirculating cooling tower systems, systems should be cleaned to remove algal growth, microbiological slime, and other deposits. Then make an initial slug addition of 12.0 to 17.8 fl. oz. of **Poly Microbiocide 1005** per 1000 gal. of water to provide 100 to 150 ppm of **Poly Microbiocide 1005** based on total weight of water in the system. Repeat initial dosage until control is evident. Make subsequent slug addition of 6.0 to 17.8 fl. oz. of **Poly Microbiocide 1005** per 1000-gal. of water (50 to 150 ppm **Poly Microbiocide 1005**) every 2 to 5 days or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of recirculating cooling tower systems.

**Poly Microbiocide 1005** is used in industrial air-washing systems which maintain effective mist-eliminating components. Prior to its use, systems should be cleaned to remove bacterial slime and other deposits. An initial slug dose of 26.1 to 35.9 fl. oz. of **Poly Microbiocide 1005** per 1000 gal. of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 21.0 to 35.9 fl. oz. of **Poly Microbiocide 1005** per 1000 gallons of water should be employed every 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and severity of the bacterial problem. Slug additions may be made to the sump or the water collection trays of the air-wash system.

**Poly Microbiocide 1005** is used to control both aerobic and anaerobic bacteria, including sulfate-reducing organisms, in petroleum secondary-recovery waterflooding operations. In systems fouled with microbiological deposits, **Poly Microbiocide 1005** should be added as a slug dose to provide a concentration of 40 to 80 ppm (5.0 to 10.0 fl. oz. of **Poly Microbiocide 1005** per 1000 gal. of water treated). This should be followed by a continuous addition of **Poly Microbiocide 1005** employing a chemical-metering pump to maintain a concentration of 40 ppm, based on total weight of water treated. Both slug additions and continuous addition of **Poly Microbiocide 1005** should be made at the heater-treater dump, gathering lines, or receiving tanks. Addition should always be made upstream to the filter.

**Poly Microbiocide 1005** is also used to inhibit the growth of fungi and bacteria in water-based drilling fluids, completion fluids, packer fluids, and other water-based drilling fluids containing starch, gums, sugars, or other organic materials. For these purposes **Poly Microbiocide 1005** is added at rates of 3.6 to 18.0 gal. per 100 barrels of fluid (0.09 to 0.43% by volume).

## STORAGE AND DISPOSAL

**PROHIBITIONS:** Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

**PESTICIDE DISPOSAL:** Pesticide, spray mixture, or waste that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides, or buried in a safe place away from water supplies.

**CONTAINER DISPOSAL:**

METAL: Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in an approved landfill or bury in a safe place. Containers over 30 gallons should be washed before offering for reconditioning.

PLASTIC: Containers under 30 gallons must not be reused but should be triple rinsed and disposed of in an approved landfill or buried in a safe place. Containers over 30 gallons are to be washed and offered for reconditioning or triple rinsed (or equivalent) and offered for recycling, reconditioning, disposal in an approved landfill or buried in a safe place.

**GENERAL:** Consult Federal, State, or Local disposal authorities for approved alternative procedures.

U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (78-387) WASHINGTON, D.C. 20460	EPA REGISTRATION NO. 8047-43	DATE OF ISSUANCE
	TERM OF ISSUANCE OCT 15 1982	
	NAME OF PESTICIDE PRODUCT Poly Microbiocide 1005	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION RENEWAL (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)		
NAME AND ADDRESS OF REGISTRANT (include ZIP code)  Polychem, Inc. P.O. Box 10026 Jefferson, LA 70181		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:		
1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.		
2. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.		
If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.		
A stamped copy of the label is enclosed for your records.
