# CAVCOIDE

## Slimicide for Paper Mills

ACTIVE INGREDIENTS:	Chlorine Dioxide	9.2%
INERT INGREDIENTS:		90.8%
		<hr/> 100.00%

### DIRECTIONS FOR USE:

**Consult our field technician before applying. Can be applied at the beater, fan pump, head box or wire tray. Continuous or slug feed, depending on system. Economics and contamination determine amount to be used, but normal dosage averages one-half to one pound per ton of finished paper.**

### **WARNING - May Be Fatal If Absorbed Through Skin.**

**Avoid contact with Cavcoide either internally or in the eyes. In case of contact, flush eyes out immediately for at least ten minutes with water. If swallowed, induce vomiting immediately. Seek medical attention if irritation persists.**

**Wash thoroughly with soap and water after handling and before eating or smoking. Use Cavcoide only for recommended purposes and at recommended dosages.**

NOTICE OF WARRANTY: Jos. Cavedon Chemical Co., Inc., warrants (its liability being limited to the purchase price of the Product named on this label) that this product consists of the ingredients specified, but makes no other warranty or representation of any kind, expressed or implied, including any warranty or representation regarding the effect or result of this product's use, whether or not the product is used in accordance with directions and shall have no responsibility whatsoever for injury to persons, or loss or damage to property resulting from the handling, storage or use of this product. The user or buyer shall be deemed to have accepted these conditions, which may be varied only by agreement in writing signed by a duly authorized representative of the above-named company.
