PERMADUST 79701

Odorless Insecticide for Indoor Use

PERMADUST is an insecticide that flushes and kills insects. It has excellent adhering properties. It may be used without damaging materials of any type.

ACTIVE INGREDIENTS:

| | |
|---|---------|
| Amorphous Silica Gel | 50.00% |
| •• Technical Piperonyl Butoxide | 10.00% |
| Pyrethrins | 1.00% |
| •• Citronellol Distillates | 39.00% |
| | 100.00% |
| *•• Equivalent to 8.00% (butylcarbitol) (p-propylpiperonyl) ether, and 2.00% of related compounds. | |

CAUTION -- Keep out of the reach of children. Avoid contamination of feed and foodstuffs. Do not use in edible products areas of food processing plants. Wash thoroughly with soap and water after using. Do not reuse container. Destroy when empty. Avoid inhalation of dust.

DIRECTIONS: Distribute PERMADUST evenly over area at the rate of 2 oz. of powder per 100 square feet to control crawling insects -- ants, roaches, silver fish. Give special attention to cracks and crevices, behind sinks, pipe chases and switch boxes and other areas where insects may hide. For the control of fleas, lice and ticks on dogs -- apply PERMADUST at the rate of 1/3 to 2/3 oz. to each animal, depending on its size, coat and condition. Apply the dust on the ears, around the neck, over the back, over and under the tail, over the genitals, on the abdomen and over the legs with particular attention to the placement of the dust between the toes of the animal. Then work the dust into the hair of the animal.
