SHAKE WELL BEFORE USING

Corry's Liquid Slug & Snail Control is a convenient, ready-to-use liquid bait. It is extremely effective in attracting and killing both large and small slugs and snails. Easy to use, quick, clean and economical Corry's Liquid Slug & Snail Control resists rain and spraying and will remain effective in the garden for many days.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TO APPLY: Pinch apart and squeeze drops of bait 4-6 inches apart on soil in infested areas. All likely places should be treated as these pests travel. Slugs and snails favor damp places around vegetables, berries, ornamental plants, dionaea leaves, rockeries, greenhouses, compost heaps, ivy patches and other ground covers which they inhabit shelter by day.

Reapply bait every two weeks until infestation is under control. Heavy or prolonged rains will usually increase infestation and shorten effective period of bait. Use more frequently under these conditions. Use approximately 24 oz. per 4000 square feet.

Slugs and snails feed almost entirely at night, in the evening, or during dark days. They prefer moist, warm conditions and rarely are active during exceedingly cold, hot or dry weather. Consider above when baiting. Preferred baiting time is in the evening and after warm rains.

SPECIAL SITUATIONS: If slugs and snails are invading from adjacent properties, squeeze lines of drops of Corry's Liquid Slug & Snail Control along perimeter for excellent control.

Corry's Liquid Slug & Snail Control can be used to protect the following fruit and vegetable plants. Apply to soil around plants and between rows. Do not apply to foliage or other parts. *(Crop)* Protect asparagus, beans, cabbages, carrots, celery, cucumbers, lettuce, melons, onions, peas, peppers, potatoes, radishes, spinach, squash, tomatoes, turnips, apples, avocados, blackberries, cherries, citrus, grapes, peaches, plums, and strawberries.

TIPS: When dispensing bait, occasionally tip bottle upright to be refilled with air. When bottle is almost empty add three tablespoons of water, shake vigorously, then continue to apply. If spout becomes clogged, lift spout and clear with toothpick.

STORAGE: Store in original bottle, in a cool, locked location protected from direct sunlight and freezing temperatures. Avoid contamination of food and feedstuffs.

DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash. Do not reuse bottles. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed. Avoid breathing vapor. Avoid contact with skin, eyes, or clothing. Wash thoroughly after use. Keep out of reach of children or domestic animals. Do not allow children or pets to contact treated areas. This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated area. Do not apply to foliage or other plant parts.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or poison control center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. If on skin: Wash thoroughly with soap and water. If in eyes: Flush with plenty of water.

ENVIRONMENTAL HAZARDS

Do not apply directly to water or wetlands (swamps, bays, marshes, and saltmarsh). Do not contaminate water when disposing of equipment washwaters.
