US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 8119-4	DATE OF ISSUANCE September 22, 1988
	TERM OF ISSUANCE Inpl Registration	
	NAME OF PESTICIDE PRODUCT Slug Out Slug & Snail Killer	

**NOTICE OF PESTICIDE:**  REGISTRATION  
 REREGISTRATION  
 (Under the Federal Insecticide, Fungicide,  
 and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

D.B. Watson, Jr. Company, Inc.  
 7809 4th Avenue South  
 Seattle, WA 98108

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
  - a. Add the phrase "EPA Registration No. 8119-4."
  - b. In your Environmental Hazards paragraph, add "Do not contaminate water by cleaning of equipment washwaters."
3. A 1-year storage stability study must be submitted for this product within 15 months from the date of this Registration Notice.
4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

BACK LABEL - PAGE 1

Slugs and snails are two of our most destructive garden pests. They are voracious feeders, consuming our most succulent and prized garden vegetation. Control of these pests is difficult as they constantly migrate to better feeding and sheltering locations. Slugs and snails feed extensively in the evening, at night or on dark, overcast days particularly when warm, moist conditions exist. Slug and snail activity is generally curtailed during periods of cold, or hot dry weather. Under these conditions they seek shelter under boards, leaves, woodpiles, or around hedges, shrubs, rockeries, and ground covers. Slugs and snails reproduce year round with reproductive activity increased during warm, moist periods. It is therefore necessary to maintain a consistent baiting program particularly during the spring and fall months.

A comprehensive baiting program using SLUG-OUT SLUG & SNAIL KILLER will provide excellent control of these pests. SLUG-OUT SLUG & SNAIL KILLER is a ready to use bait that actually attracts slugs and snails from their hiding places and kills them. Economical, quick, and easy to use SLUG-OUT SLUG & SNAIL KILLER resists rain and sprinkling and will remain effective in the garden for many days. Use SLUG-OUT SLUG & SNAIL KILLER to control slugs and snails around fruit and vegetable plants, ornamentals, flowers, and lawns.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

BACK LABEL CONT - PAGE 2

TO APPLY: Scatter bait lightly over infested area at the rate of 1 lb. per 1750 square feet. Apply bait every two weeks, or more often during periods of heavy rainfall or watering or if infestation is severe. Slugs and snails prefer damp, shady locations. All likely areas such as flower and vegetable gardens, rockeries, greenhouses, compost heaps, ground covers, and hedges should be treated as these pests travel. To achieve maximum results make sure area to be baited is damp. If area to be treated is dry, water well before application. For best results, apply bait in early evening as slugs and snails feed mainly at night.

If the migration of slugs and snails from adjacent areas is a problem a lightly applied band of SLUG-OUT SLUG & SNAIL KILLER along the entire perimeter of the infested area will form a barrier and result in excellent control.

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. Wash thoroughly after use. Keep out of reach of children and domestic animals. IMPORTANT: Keep away from children, dogs, and pets. Bait may be attractive to dogs. Confine pets during application to prevent them from believing they are being fed. Use and store under conditions where there will not be a hazard.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or poison control center. Drink 1 to 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. If on skin: Wash thoroughly with soap and water. If in eyes: Flush with plenty of fresh water.

ENVIRONMENTAL HAZARDS

This product may be toxic to birds and wildlife. Birds feeding on treated areas may be killed. Do not apply directly to water.
