SIDE LABEL - PAGE 1

CORRY'S SLUG, SNAIL & INSECT KILLER is a convenient, ready-to-use bait. It is extremely effective in the control of slugs, snails, earwigs, sowbugs, cutworms, crickets, grasshoppers, ants, armyworms, millipedes, pillbugs, strawberry root weevil, and darkling beetles. Easy to use, quick, and economical CORRY'S SLUG, SNAIL & INSECT KILLER resists rain and sprinkling and remains effective in the garden for many days.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

TO APPLY: Scatter bait lightly on soil in area to be treated. Apply heavier if infestation is severe. This bait is extremely attractive to slugs, snails, and other listed insects and will lure them from their hiding places. All likely places should be treated as slugs, snails, and other listed insects travel. They favor damp, well shaded locations where they can obtain shelter by day. Be sure area to be treated is damp. In dry weather, water area well before applying bait. Preferred baiting time is in the evening as these pests feed mainly at night. Normally apply bait every two weeks until infestation is under control. Heavy or prolonged rain can shorten effective period of bait. Use more frequently under these conditions. Use approximately one pound per 1750 square feet.

*SPECIAL SITUATIONS: If slugs, snails, and other listed insects are invading from adjacent properties a pencil thin line the entire length of the infested area will form a barrier and result in excellent control.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes eye irritation. May be harmful if swallowed. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. Wash thoroughly after use. Keep out of reach of children and domestic animals.

IMPORTANT: Keep away from children, dogs, or pets. Bait may be attractive to dogs. Confine pets during application to prevent them from believing they are being fed. Use and store under conditions where there will not be a hazard.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or poison control center. Drink 2 to 3 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. If on skin: Wash thoroughly with soap and water. If in eyes: Flush with plenty of fresh water. NOTE TO PHYSICIANS: Carbaryl is a moderate, reversible cholinesterase inhibitor. Atropine is antidotal.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic and estuarine invertebrates and toxic to birds and other wildlife. Do not apply directly to water. Do not contaminate water by disposal of wastes.
