IDEAL FOR VEGETABLE GARDENS

Deadline®

BUG
BAIT

Remains
Effective
After Rain
or Sprinkling

KEEP OUT OF REACH OF CHILDREN

CAUTION: This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated area. Read and follow all directions. See back panel for additional precautionary statements.

ACTIVE INGREDIENTS: Metaldehyde (2, 4, 6, 8-tetramethyl-1, 3, 5, 7-tetraoxocyclo-octane) 2%
Carbaryl (1-Naphthyl N-methylcarbamate) 5%
OTHER INGREDIENTS: 93%

NET WT 1 LB (454 g)

4/8

Deadline® BUG BAIT

PRODUCT USAGE

Kills	Earwigs, cutworms, sowbugs, ants, grasshoppers, snails, slugs and other listed pests
Use On	Around fruit and vegetable plants, home turf lawns, and flower gardens
Amount To Use	One pound per 1,750 to 2,200 sq. ft.

DEADLINE® BUG BAIT is a convenient, ready-to-use bait. It is extremely effective in the control of earwigs, sowbugs, cutworms, crickets, grasshoppers, ants, armyworms, millipedes, pillbugs, darkling beetles, slugs, and snails. Easy to use, quick and economical. DEADLINE® BUG BAIT resists rain and sprinkling and remains effective in the garden for many days.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Wearing chemical resistant gloves, such as polyethylene or butyl rubber or neoprene rubber or viton, apply product directly from original container on soil in area to be treated. Apply when air is calm to avoid drift and contact with eyes and skin. Start applying at the farthest corner of the treatment area and work backward to avoid contact with dusted surfaces. Allow dust to settle in treated areas before reentering. Do not repeat application more than once every seven days. Do not apply product more than four times per season. Days from product application to harvest noted below in parenthesis under SPECIAL SITUATIONS.

TO APPLY

Scatter bait lightly on soil in area to be treated. Apply heavier if infestation is severe. This product is for use in home and garden areas. This bait is extremely attractive to listed insects, slugs and snails and will lure them from their hiding places. All likely places should be treated as listed insects, slugs and snails travel. They favor damp, well shaded locations where they can obtain shelter by day. Be sure area to be treated is damp. In dry weather, water well before applying bait. Preferred baiting time is in the evening as these pests feed mainly at night. Normally apply bait every two weeks until infestation is under control. Heavy or prolonged rain can shorten effective period of bait. Use more frequently under these conditions. Use approximately one pound per 1750 square feet. Plants noted below with * use approximately one pound per 2200 square feet.

*SPECIAL SITUATIONS

If listed insects, slugs and snails are invading from adjacent properties, a pencil-thin line the entire length of the infested area will form a barrier and result in excellent control.

*DEADLINE® BUG BAIT can be used to protect home ornamental plants, flower gardens, dichondra and home turf lawns, and fruit and vegetable plants. When protecting fruit and vegetable plants treat area around plants and between rows. Do not apply to foliage or edible parts of plant. Protect the following fruit and vegetable plants: asparagus (1), beans (3), cabbage (3), carrots (7), celery (15), *cucumbers (3), lettuce (15), *melons (3), peas (3), peppers (3), potatoes (7), radishes (7), spinach (15), *squash (3), tomatoes (3), turnips (7), and strawberries (7).

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry, locked location out of direct sunlight, in original container, and not accessible to children or pets. Avoid contamination of feed and foodstuffs.

DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes eye irritation. May be harmful if swallowed. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. Wash thoroughly after use. Keep out of reach of children and domestic animals. This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated area.

IMPORTANT: Keep away from children, dogs and pets. Bait may be attractive to dogs. Confine pets during application to prevent them from believing they are being fed. Use and store under conditions where there will not be a hazard.

USER SAFETY REQUIREMENTS

- Wear long sleeved shirt, long pants, shoes plus socks and chemical resistant gloves, such as polyethylene or butyl rubber or neoprene rubber or viton when applying this product.
- Change clothing as soon as possible after use.
- Wash the outside of gloves before removing. As with any pesticide product, wash hands thoroughly immediately after handling and before eating, smoking or using the toilet.
- Do not allow children or pets to contact treated area until dust has settled.

FIRST AID

This product contains N-methyl carbamate that inhibits cholinesterase

If swallowed:

- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 - 20 minutes.
- Call a poison control center or doctor for treatment advice.

If inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents) call 1-800-308-3723.

NOTE TO PHYSICIAN

Carbaryl is a moderate, reversible cholinesterase inhibitor. Atropine is antidotal.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic and estuarine invertebrates. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

CORRY'S® INSECT-KILLER is a convenient, ready-to-use bait. It is extremely effective in the control of earwigs, sowbugs, cutworms, crickets, grasshoppers, ants, armyworms, millipedes, pillbugs, darkling beetles, slugs, and snails. Easy to use, quick and economical CORRY'S® INSECT-KILLER resists rain and sprinkling and remains effective in the garden for many days.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Wearing chemical resistant gloves, such as polyethylene or butyl rubber or neoprene rubber or viton, apply product directly from original container on soil in area to be treated. Apply when air is calm, to avoid drift and contact with eyes and skin. Start applying at the farthest corner of the treatment area and work backward to avoid contact with dusted surfaces. Allow dust to settle in treated areas before reentering. Do not repeat application more than once every seven days. Do not apply product more than four times per season. Days from product application to harvest noted below in parenthesis under SPECIAL SITUATIONS.

TO APPLY

Scatter bait lightly on soil in area to be treated. Apply heavier if infestation is severe. This product is for use in home and garden areas. This bait is extremely attractive to listed insects, slugs and snails and will lure them from their hiding places. All likely places should be treated as listed insects, slugs and snails travel. They favor damp, well shaded locations where they can obtain shelter by day. Be sure area to be treated is damp. In dry weather, water well before applying bait. Preferred baiting time is in the evening as these pests feed mainly at night. Normally apply bait every two weeks until infestation is under control. Heavy or prolonged rain can shorten effective period of bait. Use more frequently under these conditions. Use approximately one pound per 1750 square feet. Plants noted below with * use approximately one pound per 2200 square feet.

SPECIAL SITUATIONS

If listed insects, slugs and snails are invading from adjacent properties, a pencil thin line the entire length of the infested area will form a barrier and result in excellent control.

CORRY'S® INSECT-KILLER can be used to protect home ornamental plants, flower gardens, dichondra and home turf lawns, and fruit and vegetable plants. When protecting fruit and vegetable plants treat area around plants and between rows. Do not apply to foliage or edible parts of plant. Protect the following fruit and vegetable plants: asparagus (1), beans (3), cabbage (3), carrots (7), celery (15), cucumbers (3), lettuce (15), melons (3), peas (3), peppers (3), potatoes (7), radishes (7), spinach (15), squash (3), tomatoes (3), turnips (7), and strawberries (7).

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic and estuarine invertebrates. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

El INSECTICIDA de CORRY'S® es un cebo conveniente y listo para usar. Es extremadamente efectivo para el control de tijeretas, cochinillas, gusanos cortadores, grillos, saltamontes, hormigas, gusanos soldados, milpiés, cochinilla de humedad, escarabajos de la oscuridad, babosas y caracoles. Fácil de usar, rápido y económico El INSECTICIDA de CORRY'S® resiste la lluvia y el riego y sigue siendo efectivo en el jardín durante muchos días.

INSTRUCCIONES DE USO

Es una violación de la ley Federal usar este producto de forma inconsistente con lo que dice esta etiqueta. Si se usan guantes resistentes a los químicos, como polietileno o caucho butílico o caucho de neopreno o vitón, aplique el producto directamente del envase original sobre la tierra en el área a tratar. Aplique cuando no haya aire para evitar que se esparza y entre en contacto con los ojos y la piel. Inicie aplicando en la esquina más lejana del área de tratamiento y trabaje hacia atrás para evitar el contacto con las superficies rociadas. Deje que se fije el polvo en las áreas tratadas antes de entrar de nuevo. No repita la aplicación más de una vez cada siete días. No aplique el producto más de cuatro veces por temporada. Días después de la aplicación para cosechar se anota abajo dentro de paréntesis bajo SITUACIONES ESPECIALES.

PARA APLICAR

Disperse ligeramente el cebo sobre la tierra en el área a tratar. Aplique mayor cantidad si la infestación es severa. Este producto sólo es para usarlo en áreas de la casa y el jardín. Este cebo es extremadamente atractivo para los insectos indicados, babosas y caracoles y los sacará de sus escondites. Todos los lugares probables se deben tratar ya que los insectos mencionados, las babosas y los caracoles, se trasladan. Les atraen los lugares húmedos y con sombra, en donde pueden obtener albergue durante el día. Asegúrese que el área a tratar esté húmeda. En climas secos, riegue bien antes de aplicar el cebo. La mejor hora para cebar es durante la tarde, ya que estas pestes se alimentan principalmente durante la noche. Normalmente aplique el cebo cada dos semanas, hasta que la infestación esté bajo control. La lluvia fuerte o prolongada puede disminuir el período efectivo del cebo. Use con mayor frecuencia bajo estas condiciones. Use aproximadamente una libra por 1750 pies cuadrados (162.58 metros cuadrados). Las plantas anotadas abajo con * usan aproximadamente una libra por 2200 pies cuadrados (204.39 metros cuadrados).

SITUACIONES ESPECIALES

Si los insectos mencionados, las babosas y los caracoles están invadiendo de propiedades adyacentes, una línea delgada de lápiz alrededor del área infestada formará una barrera, la cual será un excelente control.

El INSECTICIDA de CORRY'S® se puede usar para proteger plantas ornamentales de la casa, jardines de flores, césped de oreja de ratón y de tepes, y plantas frutales y de vegetales. Cuando quiera proteger plantas frutales y vegetales trate el área alrededor de las plantas y entre filas. No aplique al follaje o partes comestibles de la planta. Proteja las siguientes plantas frutales y vegetales: espárragos (1), frijoles (3), repollo (3), zanahorias (7), apio (15), pepinos (3), lechuga (15), melones (3), chicharos (3), pimientos (3), papas (7), rábanos (7), espinaca (15), calabazas (3), tomates (3), nabos (7) y fresas (7).

RIESGOS AMBIENTALES

Este producto es extremadamente tóxico para los invertebrados acuáticos y marinos. Para usos terrestres, no lo aplique directamente al agua o en áreas donde hay agua en la superficie o en áreas entre mareas bajo la marca alta promedio de agua. No contamine el agua al deshacerse de la que usó para limpiar el equipo.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Causes eye irritation. May be harmful if swallowed. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. Wash thoroughly after use. Keep out of reach of children and domestic animals. This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated area. **IMPORTANT:** Keep away from children, dogs and pets. Bait may be attractive to dogs. Confine pets during application to prevent them from believing they are being fed. Use and store under conditions where there will not be a hazard.

USER SAFETY REQUIREMENTS

- Wear long sleeved shirt, long pants, shoes plus socks and chemical resistant gloves, such as polyethylene or butyl rubber or neoprene rubber or viton when applying this product.
- Change clothing as soon as possible after use.
- Wash the outside of gloves before removing. As with any pesticide product, wash hands thoroughly immediately after handling and before eating, smoking or using the toilet.
- Do not allow children or pets to contact treated area until dust has settled.

FIRST AID

This product contains N-methyl carbamate that inhibits cholinesterase

If swallowed:

- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 - 20 minutes.
- Call a poison control center or doctor for treatment advice.

If inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call 1-800-368-3723.

NOTE TO PHYSICIAN

Carbaryl is a moderate, reversible cholinesterase inhibitor. Atropine is antidotal.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry, locked location out of direct sunlight, in original container, and not accessible to children or pets. Avoid contamination of feed and foodstuffs.

DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**AVISOS DE PRECAUCION
RIESGOS PARA HUMANOS Y ANIMALES DOMESTICOS**

PRECAUCION: Causa irritación en los ojos. Puede ser nocivo si se ingiere. Evite respirar el polvo. Evite el contacto con ojos, piel o ropa. Lávese minuciosamente después de utilizarlo. Manténgase fuera del alcance de los niños y de los animales domésticos. Este pesticida puede ser mortal para perros y otras mascotas, si se ingiere. Manténgala a las mascotas fuera del área tratada.

IMPORTANTE: Manténgase fuera del alcance de los niños, perros y mascotas. El cebo puede ser atractivo para los perros. Encierre a sus mascotas durante la aplicación para evitar que crean que están siendo alimentados. Utilice y almacene en condiciones en donde no sea peligroso. **REQUISITOS DE SEGURIDAD PARA EL USUARIO**

Use camisa de mangas largas, pantalones largos, zapatos con calcetines y guantes resistentes a los químicos, como polietileno o caucho butílico o caucho de neopreno o vitón, cuando aplique este producto.

Cámbiese la ropa tan pronto como sea posible después de usar el producto.

Lave el exterior de los guantes antes de quitárselos. Al igual que con cualquier otro producto pesticida, lávese minuciosamente las manos inmediatamente después de su manejo y antes de comer, fumar o usar el sanitario.

No permita que los niños o las mascotas entren en contacto con el área tratada hasta que el polvo se haya fijado.

PRIMEROS AUXILIOS
Este producto contiene N-metil carbamato, el cual inhibe la colinesterasa.

Si se traga:
Llame inmediatamente al centro de control de envenenamiento o al doctor para obtener más recomendaciones de tratamiento.

Haga que la persona tome sorbos de un vaso con agua, si puede tragar.

No induzca el vómito a menos que lo indique el centro de control de envenenamientos o el doctor.

No le dé nada por la boca a una persona inconsciente.

Si entra en los ojos:
Mantenga el ojo abierto, y enjuague con agua despacio y con cuidado por 15-20 minutos.

Si tuviera lentes de contacto, quítelos después de lavarse con agua en los primeros 5 minutos y después continúe lavando el ojo.

Llame al centro de control de envenenamiento o al doctor para obtener más recomendaciones de tratamiento.

Si cae en la piel o ropa:
Quite la ropa contaminada.

Enjuague la piel inmediatamente con mucha agua durante 15 - 20 minutos.

Llame al centro de control de envenenamiento o al doctor para obtener más recomendaciones de tratamiento.

Si se inhala:
Lléve a la persona al aire fresco.

Si la persona no respira llame al 911 o a una ambulancia, luego de respiración artificial, preferible de boca a boca, si es posible.

Llame al centro de control de envenenamiento o al doctor para obtener recomendaciones adicionales de tratamiento.

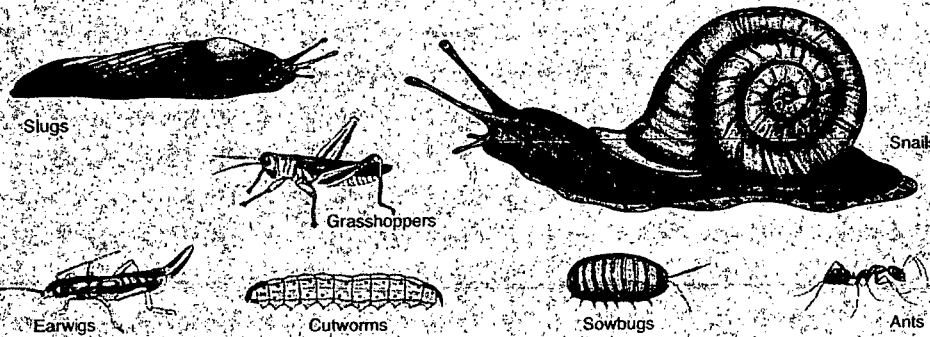

Consulte el panel lateral para conocer avisos de precaución adicionales.

CORRY'S

IDEAL FOR VEGETABLE GARDENS

Instrucciones en español en los lados del cartón.

BUG BAIT

Remains Effective After Rain or Sprinkling

KEEP OUT OF REACH OF CHILDREN

MANTÉNGALO ALEJADO DE LOS NIÑOS

CAUTION: THIS PESTICIDE MAY BE FATAL TO DOGS OR OTHER PETS IF EATEN. KEEP PETS OUT OF TREATED AREA. READ AND FOLLOW ALL DIRECTIONS. SEE SIDE / BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

PRECAUCIÓN: ESTE PESTICIDA PUEDE SER FATAL SI ES COMIDO POR LOS PERROS Y OTROS ANIMALES DOMÉSTICOS. MANTENGA LOS ANIMALES DOMÉSTICOS ALEJADOS DEL ÁREA DONDE SE USA ESTE PRODUCTO. PARA MÁS INFORMACIÓN ACERCA DE LAS PRECAUCIONES, LEA LA PÁGINA ENTERA.

ACTIVE INGREDIENTS: Metaldehyde (2, 4, 6, 8-tetramethyl-1, 3, 5, 7-tetraoxycyclo-octane) 2%
 Carbaryl (1-Naphthyl N-methylcarbamate) 5%
OTHER INGREDIENTS: 93%

NET WT 3.5 LBS (1.58 kg)

INSTRUCCIONES PARA SU USO

Es una violación a la ley Federal el uso de este producto de una manera inconsistente a su etiqueta. Utilizando guantes resistentes a los químicos, tal como polietileno o caucho de butilo o caucho de neoprene o de viton, aplique directamente del recipiente original al área de suelo que va ser tratada. Aplique cuando el aire esté calmado para evitar que se lo lleve el viento y que haya contacto con los ojos y la piel. Empiece aplicar en la esquina más retirada del área de tratamiento y trabaje hacia atrás para evitar contacto con las superficies tratadas. Deje que el polvo se asiente en las áreas tratadas antes de reingresar. No repita la aplicación más de una vez cada siete días. No aplique el producto más de cuatro veces por temporada. Los días de la aplicación del producto hasta la cosecha están descritos abajo en paréntesis bajo la SITUACIONES ESPECIALES.

PARA APLICAR

España el cebo ligeramente en la tierra en el área que va a ser tratada. Si la aplicación es severa, aplíquelo con mayor cantidad. Este producto es para uso en áreas de las casas y los jardines. Este cebo es muy atractivo para las babosas, los caracoles de tierra y otros insectos en la lista y es un señuelo que los atrae de sus escondites. Todos los lugares probables deben ser tratados porque tienden a migrar. Prefieren lugares húmedos con bastante sombra en donde se albergan durante el día. Asegúrese que el área que se va a tratar este húmeda. Cuando el tiempo este seco, humedezca el terreno con mucha agua antes de aplicar el cebo. El tiempo preferido para aplicar el cebo es durante el anochecer ya que estas plagas casi siempre se alimentan por la noche. Normalmente aplique el cebo cada dos semanas hasta que la infestación haya sido controlada. Lluvias fuertes o prolongadas pueden reducir el periodo efectivo del cebo. Uselo con más frecuencia bajo estas condiciones. Use aproximadamente una libra por cada 1750 pies cuadrados. Plantas descritas abajo con * use aproximadamente una libra por cada 2200 pies cuadrados.

*SITUACIONES ESPECIALES

Si las babosas, los caracoles y los otros insectos en la lista están invadiendo de propiedades adyacentes, una línea de cebo a lo largo del área infestada formará una barrera que resultará en un control efectivo. CORRY'S® BUG BAIT debe ser usado para proteger plantas ornamentales de la casa, jardines de flores, céspedes de dichondras y de las casas, frutales y vegetales. Aplique únicamente en la superficie de la tierra. No aplique al follaje o a las partes comestibles de las plantas. Proteja espárragos (1), frijoles (3), repollo (3), zanahorias (7), apios (15), *pepinos (3), lechuga (15), *melones (3), chicharos (3), pimentones (3), papas (7), rábanos (7), espinacas (15), *calabazas (3), tomates (3), nabos (7), y fresas (7).

ALMACENAMIENTO Y ELIMINACIÓN

ALMACENAMIENTO: Almacéñese en un lugar fresco y seco que esté bajo llave fuera de la luz directa del sol, en su envase original y que no sea accesible para los niños y mascotas. Evite la contaminación de comida de animales y alimentos.

ELIMINACIÓN: Si está vacío: No use de nuevo este envase. Deséchelo en la basura o, ótrezalo para reciclaje si este es disponible. Si está parcialmente lleno: Llame a su agencia local de recolección de desechos sólidos para instrucciones de eliminación. Nunca ponga producto que no haya usado en cualquier drenaje que este adentro o afuera de la casa.

CORRY'S® BUG BAIT is a convenient, ready-to-use bait. It is extremely effective in the control of earwigs, sowbugs, cutworms, crickets, grasshoppers, ants, armyworms, millipedes, pillbugs, darkling beetles, slugs, and snails. Easy to use, quick and economical CORRY'S® BUG BAIT resists rain and sprinkling and remains effective in the garden for many days.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Wearing chemical resistant gloves, such as polyethylene or butyl rubber or neoprene rubber or viton, apply product directly from original container on soil in area to be treated. Apply when air is calm to avoid drift and contact with eyes and skin. Start applying at the farthest corner of the treatment area and work backward to avoid contact with dusted surfaces. Allow dust to settle in treated areas before reentering. Do not repeat application more than once every seven days. Do not apply product more than four times per season. Days from product application to harvest noted below in parenthesis under SPECIAL SITUATIONS.

TO APPLY

Scatter bait lightly on soil in area to be treated. Apply heavier if infestation is severe. This product is for use in home and garden areas. This bait is extremely attractive to listed insects, slugs and snails and will lure them from their hiding places. All likely places should be treated as listed insects, slugs and snails travel. They favor damp, well shaded locations where they can obtain shelter by day. Be sure area to be treated is damp. In dry weather, water well before applying bait. Preferred baiting time is in the evening as these pests feed mainly at night. Normally apply bait every two weeks until infestation is under control. Heavy or prolonged rain can shorten effective period of bait. Use more frequently under these conditions. Use approximately one pound per 1750 square feet. Plants noted below with * use approximately one pound per 2200 square feet.

***SPECIAL SITUATIONS**

If listed insects, slugs and snails are invading from adjacent properties, a pencil-thin line the entire length of the infested area will form a barrier and result in excellent control.

*CORRY'S® BUG BAIT can be used to protect home ornamental plants, flower gardens, dichondra and home turf lawns, and fruit and vegetable plants. When protecting fruit and vegetable plants treat area around plants and between rows. Do not apply to foliage or edible parts of plant. Protect the following fruit and vegetable plants: asparagus (1), beans (3), cabbage (3), carrots (7), celery (15), *cucumbers (3), lettuce (15), *melons (3), peas (3), peppers (3), potatoes (7), radishes (7), spinach (15), *squash (3), tomatoes (3), turnips (7), and strawberries (7).

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry, locked location out of direct sunlight, in original container, and not accessible to children or pets. Avoid contamination of feed and foodstuffs.

DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes eye irritation. May be harmful if swallowed. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. Wash thoroughly after use. Keep out of reach of children and domestic animals. This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated area.

IMPORTANT: Keep away from children, dogs and pets. Bait may be attractive to dogs. Confine pets during application to prevent them from believing they are being fed. Use and store under conditions where there will not be a hazard.

USER SAFETY REQUIREMENTS

- Wear long sleeved shirt, long pants, shoes plus socks and chemical resistant gloves, such as polyethylene or butyl rubber or neoprene rubber or viton when applying this product.
- Change clothing as soon as possible after use.
- Wash the outside of gloves before removing. As with any pesticide product, wash hands thoroughly immediately after handling and before eating, smoking or using the toilet.
- Do not allow children or pets to contact treated area until dust has settled.

FIRST AID

This product contains N-methyl carbamate that inhibits cholinesterase

IF SWALLOWED	IF IN EYES	IF ON SKIN OR CLOTHING	IF INHALED
*Call poison control center or doctor immediately for treatment advice. *Have person sip a glass of water if able to swallow. *Do not induce vomiting unless told to do so by the poison control center or doctor. *Do not give anything by mouth to an unconscious person.	*Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. *Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. *Call a poison control center or doctor for treatment advice.	*Take off contaminated clothing. *Rinse skin immediately with plenty of water for 15 - 20 minutes. *Call a poison control center or doctor for treatment advice.	*Move person to fresh air. *If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. *Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call 1-800-308-3723.

NOTE TO PHYSICIAN Carbaryl is a moderate, reversible cholinesterase inhibitor. Atropine is antidotal

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic and estuarine invertebrates. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

MANTENGALO ALEJADO DE LOS NIÑOS

PRECAUCION: Este pesticida puede ser fatal si es comido por los perros y otros animales domésticos. Mantenga los animales domésticos alejados del área donde se usa este producto. Para más información acerca de las precauciones, lea la página entera.

**DECLARACIONES DE PRECAUCION
RIESGOS PARA LOS SERES HUMANOS
Y ANIMALES DOMESTICOS:**

PRECAUCION: Causa irritación en los ojos. Puede ser nocivo si se ingiere. Evite respirar el polvo. Evite el contacto con la piel, los ojos y la ropa. Lávese bien después de utilizarlo. Mantener fuera del alcance de los niños y animales domésticos. Este pesticida puede ser fatal para los perros o otras mascotas si lo comen. Mantenga las mascotas fuera del área tratada.

IMPORTANTE: Mantenga retirado de los niños, perros y mascotas. El cebo puede ser atractivo para los perros. Encierre las mascotas durante la aplicación para prevenir que ellas crean que están siendo alimentadas. Use y guarde bajo condiciones donde no habrá ningún riesgo.

REQUISITOS PARA PROTECCION DEL USUARIO:

- Use camisas de manga larga, pantalones largos, zapatos además de calcetines y guantes resistentes a los químicos, tal como poliuretano o caucho de butilo o caucho de neoprene o de viton cuando aplique este producto.
- Cámbiese la ropa lo mas pronto posible después de usar el producto.
- Lave la parte exterior de los gigantes antes de quitárselos. De la misma manera como cualquier pesticida, lávese las manos minuciosamente inmediatamente después de usar el producto y antes de comer, fumar y usar el inodoro.
- No permita que los niños y mascotas hagan contacto con la área tratada hasta que el polvo se haya asentado.

PRIMEROS AUXILIOS

Este producto contiene carbamato de N-metilo que suprime la colinesterasa.

- Si se ingiere:
 - Inmediatamente llame al centro de control de envenenamientos o al médico para que le aconseje un tratamiento.
 - Si la persona puede tragar, haga que se beba un vaso con agua.
 - No induzca el vómito a menos que se lo haya dicho el centro de control de envenenamientos o el médico.
 - No de nada por la boca a una persona inconsciente.

- Si le cae en los ojos:
 - Mantenga el ojo abierto y enjuáguelo despacio y suavemente con agua por 15-20 minutos.
 - Si usa lentes de contacto, quíteselos después de los primeros 5 minutos y continúe enjuagándose el ojo.
 - Llame al centro de control de envenenamientos o al médico para que le aconseje un tratamiento.

- Si toca la piel o la ropa:
 - Quitese la ropa contaminada.
 - Enjuáguese la piel contaminada inmediatamente con bastante agua por 15-20 minutos.
 - Llame al centro de control de envenenamientos o al médico para que le aconseje un tratamiento.

- Si Se Inhala:
 - Mueva a la persona a un lugar donde haya aire fresco.
 - Si la persona no está respirando, llame al 911 o la ambulancia, después de respiración artificial, preferiblemente de boca en boca si es posible.
 - Llame al centro de control de envenenamientos o al médico para un consejo de tratamiento adicional.

NÚMERO DE EMERGENCIA

Tenga en sus manos el número o la etiqueta del producto cuando llame al centro de control de envenenamientos o al médico, o cuando vaya a tratamiento. Para información de este pesticida (necesario inquietudes de salud, emergencias médicas o incidentes con el pesticida), llame 1-900-308-3723.

NOTA AL MEDICO

El carbaryl es un suprimidor moderado y reversible de colinesterasa. Atropine es antidotal.

RIESGOS AMBIENTALES

Este producto es extremadamente tóxico a invertebrados acuáticos y estuarinos. Para usos terrestres, no aplique directamente en el agua o en áreas que agua superficial este presente o en áreas de marea que están debajo del promedio de la marca de la marea alta. No contamine el agua cuando se desecha o se enjuague del equipo.
