### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is specially formulated to attract and control slugs and snails. If ground is dry, thoroughly water areas to be treated. For best results, apply in the evening around flowers, ornamental plants, vegetable gardens and lawn areas. Do not place pellets in piles. Apply only to the soil surface around plants. Do not apply directly to plants. Do not mix with any seed prior to application.

**FLOWERS & LAWNS:** Pull tab to open and scatter RainTough™ Deadline® Slug & Snail Killer pellets around flower beds and lawn edges. Apply any time, but preferably in early evening. Repeat applications as needed.
