P.O Box 1820
North Bend, WA 98045

Dear Ms. Horton:

Subject: Label Notification per Pesticide Registration Notice 98-10
(Add marketing claim "English Formula")

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10, dated May 21, 2010, for the product "Corry's Slug & Snail Death (3.25)," EPA Registration Number 8119-11.

The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the labeling action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

The cover letter submitted with your application references updated Alternate CSFs #2 and #3. Please note that these updated CSFs were previously approved in an Agency letter dated May 12, 2010 (copy enclosed). Therefore, no further action has been taken on these duplicate CSFs.

If you have any questions, please contact me directly at 703-308-8735 or email me at chao.julie@epa.gov.

Sincerely,

Julie A. Chao

Re: Notification submitted in response to Agency letter dated May 12, 2010
EPA Reg. No. 8119-11, Corry's Slug & Snail Death (3.25)

Attn: Julia Chao
Insecticide-Rodenticide Branch

In response to your letter of May 12, 2010, the enclosed notification is submitted to:

- 1) Revise the label marketing claim – English Formula
- 2) Update the Alternate #2 and Alternate #3 Confidential Statements of Formula. These CSF changes reflect a change in source supplier of the previously-approved inert repellent agent, VPAM. Matson LLC is advised that ownership/manufacture of this inert material has been transferred from Scotts France SAS to Lonza Group of Basel, Switzerland.

No other changes are made to the label or formulation materials.

The following documents are enclosed:

- 1) EPA Form 8570-1, Application for Pesticide – Notification (2 copies)
- 2) Copy of the revised label, omitting "Original" from the front panel claim – "English Formula"
- 3) May 21, 2010 Confidential Statements of Formula – Alt #2 and Alt #3 (2 copies each) with revisions highlighted.

Best regards,

Rebecca M. Horton

Slugs & Snails are two of our most destructive garden pests. Although their outward appearance is quite different, they are essentially the same creature, except that the slug does not have the external shell of the snail. Slugs and snails feed almost entirely at night, in the evening or during dark days. They prefer moist, warm conditions and rarely venture from their hiding places during cold weather or during exceedingly dry or hot spells. Slugs and snails hatch from eggs, laid in clusters, under debris, stones, compost heaps or beneath the surface of the soil. Generally, they will hatch out after 20 to 30 days of favorable weather conditions after which time they will continue to grow slowly, eating our most tender and succulent vegetation. While these small slugs and snails are growing and eating they migrate towards better feeding and sheltering conditions. It is because of this migrating habit that it is impossible to completely eliminate the slug and snail problem. However, with the use of **Corry's® Slug & Snail Death (3.25)** and a consistent baiting program, these pests can be reduced to where they no longer present a major threat to our gardens.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Optional Chart]

Product USAGE	
Kills	Snails and slugs
Use On	Around fruit and vegetable plants, flower gardens and ground covers
Amount to Use	One pound per 2,000 sq. ft.

TO APPLY: (See graphics for suggested application methods) This product is for use in Home and Garden Areas. **Corry's® Slug & Snail Death (3.25)** is so easy to use. This product requires no mixing, spraying or special applicators. Just scatter lightly on the soil surface in infested areas as recommended in the graphics below. Apply heavier if infestation is severe. If slugs and snails are invading from adjacent properties, a pencil thin line the entire length of the infested area will form a barrier resulting in excellent control. This bait is extremely attractive to slugs and snails and actually lures them from their hiding places and kills them. Reapply bait every two weeks – more often during heavy infestations or in areas heavily watered. All likely places should be treated as these pests migrate. They favor damp places around vegetable plants, flower gardens, rockeries, hedges, compost heaps, dichondra lawns, ivy patches and other ground cover where they can obtain shelter by day. For best results, be sure area to be baited is damp. In very dry weather, water well before baiting. Use approximately one pound per 2000 square feet.

CORRECT

CORRECT

CORRECT

INCORRECT

INCORRECT

Corry's® Slug & Snail Death (3.25) can be used to protect the following fruit and vegetable plants. Apply only to soil surface. Do not apply to foliage or edible parts of plants. Use **Corry's® Slug & Snail Death (3.25)** to protect asparagus, beans, cabbage, carrots, celery, cucumbers, lettuce, melons, onions, peas, peppers, potatoes, radishes, spinach, squash, tomatoes, turnips, apples, avocados, blackberries, cherries, citrus, grapes, peaches, plums, and strawberries.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in a cool, dry, locked location out of direct sunlight, in original container, and not accessible to children or pets. Avoid contamination of feed and foodstuffs.

PESTICIDE DISPOSAL: If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

CONTAINER DISPOSAL: If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. Wash thoroughly after use. **KEEP OUT OF REACH OF CHILDREN AND DOMESTIC ANIMALS.** This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated area.

IMPORTANT: Keep away from children, dogs and pets. Bait may be attractive to dogs. Confine pets during application to prevent them from believing they are being fed. Use and store under conditions where there will not be a hazard.

FIRST AID

If swallowed:

- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice

If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 – 20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15 – 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call 1-800-308-3723.

ENVIRONMENTAL HAZARDS

For terrestrial uses, do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
