T-N-STAT is a highly active mixture of three T-N-STAT active ingredients combined together with an effective fabric softener. It is used on soiled and contaminated fabrics such as diapers, hospital and institutional linens, and athletic equipment. It is a major housekeeping problem not only in hospitals, hotels, restaurants and schools. Use as directed. T-N-STAT is an effective residual bacteriostatic treatment together with softening and whitening. It is used on soiled fabrics such as diapers, hospital and institutional linens, and athletic equipment. T-N-STAT will effectively protect the fabric against rapid bacterial growth and moisture and wet contamination.

T-N-STAT is designed for commercial and institutional use. It is not intended for use on children. Laundered fabric may also be treated and softened with T-N-STAT. For information, see label directions.

T-N-STAT Bacteriostatic Laundry Softener Concentrate is a non-flammable liquid. It should be handled with care.
