

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labelling.

#### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Do not stack more than four drums high. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

For cleaning normally soiled surfaces, use 1 cup (8 oz.) per gallon of water. Sanitizing, disinfecting and deodorizing are effected at this dilution, as this cleaner reduces bacterial counts in sufficient numbers. The quaternary in this product is effective against a broad spectrum of organisms when surfaces to be cleaned are thoroughly wetted with solutions of this product.

For very heavily soiled areas, a preliminary cleaning may be required to remove heavy soil deposits from surfaces prior to the use of a dilution of 1 cup (8 oz.) per gallon of water. At this use dilution, this product is an effective disinfectant and germicide, furnishing 800 ppm of effective quaternary compound.

This cleaner is recommended for cleaning, disinfecting and deodorizing hard surfaces such as floors, walls, ceilings in hospitals, schools, and in all public places, where cleanliness and bacterial control are important.

After cleaning surfaces likely to come in contact with food such as food handling equipment or cutting boards, be sure to rinse with potable water.

### DANGER

This cleaner is a CONCENTRATED detergent-disinfectant, and MUST be diluted with water before using.

Do not use with soap, anionic detergents, or other chemicals.

**DANGER:** Keep Out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food!

#### STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probably mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**ONLY FOR SALE TO, USE, AND STORAGE BY SERVICEPERSONS.**
