 MAY 5 - 1971
 UNDER THE FEDERAL INSECTICIDE
 FUNGICIDE ACT AND THE FEDERAL
 FOR ECONOMIC PEST CONTROL REGISTERED
 ED UNDER NO. 8123-22 SUBJECT
 TO ATTACHED COMMENTS.

DIRECTIONS FOR USE

Initial Dose: 1 gallon concentrate to 50,000 gallons of water in a freshly filled pool, or where algae are not visible.

Maintenance dose: 1 quart to 50,000 gallons of water, at least once every 7 days. If high temperatures are encountered, or pool has unusually heavy use, add maintenance dose more frequently.

For makeup water, add 1 quart for each 10,000 gallons of fresh makeup water added per week.

When swimming season is over, and if water is left in pool, add 1 gallon of concentrate for each 50,000 gallons of water left in pool. This will provide a measure of algae growth control during off-season. This treatment will also help the servicing of the pool the following season.

For use on pool-side surfaces.

After cleaning surfaces with good hard-surface cleaner, use 1 oz. of this concentrate to 4 gallons of water for sanitizing pool-side surfaces -- 2 oz. per gallon of water will disinfect surfaces. At these dilutions, effective deodorizing action is also accomplished.

MILLER'S

ALGAECIDE

CONTROLS ALGAE GROWTH IN SWIMMING POOLS

ACTIVE INGREDIENTS

n-Alkyl (50% C12, 30% C14, 17% C16, 3% C18,
 dimethyl ethylbenzyl ammonium chloride 5.0%

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)
 dimethyl benzyl ammonium chloride 5.0%

INERT INGREDIENTS 90.0%

WARNING: KEEP OUT OF REACH OF CHILDREN

Used as directed, this product will kill and prevent development of Chlorococcoides (green), Phormidium inundatum (black algae), Phormidium rotzii (square D algae), Lyngbya versicolor (blue-green algae), and other swimming pool algae. Will not harm pool equipment. Compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or pre-mixed with other water treating chemicals. Works best when added, by itself, directly to pool water.

This product is toxic to fish. Do not discharge treated effluent into lakes, streams or ponds.

WARNING: Causes eye and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. **AVOID CONTAMINATION OF FOOD.**

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, do not induce vomiting. Drink large quantities of fluid, and call a physician immediately.
