EPA Reg. No. 8123-17

# VAPORIZING INSECTICIDE

(Designed for use in Electric or Hand Sprayers)

Kills roaches, flies, mosquitoes, gnats, waterbugs, silverfish, ants, fleas, bedbugs, clothes moths.

ACTIVE INGREDIENTS		100.0%
Petroleum distillate	98.955%	
Piperonyl Butoxide Tech.*	.330	
Pyrethrins	.165	
N-Octyl Bicycloheptene Dicarboximide	.350	
*Equivalent to (Butylcarbitol) (6-Propylpiperonyl) ether .264% and related compounds .066%		

**CAUTION:** KEEP OUT OF REACH OF CHILDREN - HARMFUL IF SWALLOWED  
READ ALL CAUTION STATEMENTS BEFORE USING  
DO NOT SPRAY OR STORE NEAR FIRE OR OPEN FLAME  
COMBUSTIBLE MIXTURE

## READ CAREFULLY BEFORE USING THIS PRODUCT

Harmful if swallowed. KEEP OUT OF REACH OF CHILDREN. Contains petroleum distillates. Avoid prolonged or repeated breathing of spray mist and skin contact. Wash thoroughly after using. Do not use on household pets or humans. Do not permit persons or pets to go on or touch treated areas until spray is completely dry. Avoid contamination of food and foodstuffs. Avoid spraying utensils and dishes.

**RESILIENT FLOORS:** Most resilient floors, such as vinyl, asphalt and linoleum, are subject to staining and softening when in contact with petroleum base oils. Before spraying, always test flooring material for possible staining and/or deterioration.

Always keep spray at least 36" from article being sprayed, and keep spray moving.

NEVER SPRAY NEAR OPEN FIRE OR FLAMES. **CAUTION:** DO NOT USE MORE THAN 1 OZ. OF THIS SPRAY FOR EACH 300 CU. FT. OF AREA BEING TREATED, TO AVOID EXPLOSION HAZARD.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labelling.

## STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Do not expose to extreme temperatures. Do not stack more than four drums high. Drums should be opened in well-ventilated areas. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

### TO KILL FLIES, MOSQUITOES AND GNATS:

Close doors and windows, directing the spray up toward the ceiling. The room should be filled with mist and remain closed for 10-15 minutes. Sweep up dead or stupefied insects and destroy them. Repeat treatment as often as necessary.

### TO KILL ROACHES, WATERBUGS, AND SILVERFISH:

Spray liberally around refrigerators, sinks, all cabinets, around pantry shelves, into all cracks and crevices in moulding and woodwork, pipe openings in walls and floors, or wherever these insects are likely to hide. Repeat treatment as often as necessary.

### TO KILL ANTS:

Use the spray so as to wet as many insects as possible, paying particular attention to nests and runways. Repeat treatment as often as necessary.

### TO KILL BEDBUGS:

Bedbugs should be sprayed thoroughly in all corners, cracks, and crevices. Springs and mattresses should be sprayed thoroughly after the bed is dismantled, paying particular attention to cracks, crevices, tufts and seams on mattresses, wallpaper that is loose, loose moulding and any place where the bugs may hide. Repeat treatment as often as necessary.

### TO KILL CLOTHES MOTHS AND CARPET BEETLES:

Spray thoroughly all articles to be protected, paying particular attention to seams and folds. Coverage should be thorough. Also spray thoroughly the interior surfaces of storage containers, such as trunks and closets, paying particular attention to cracks and crevices where wool lint and organic matter accumulate, and serve as breeding material for these pests. Repeat application monthly, unless treated articles are stored in a moth-tight container.

### TO KILL FLEAS:

Liberally spray all infested places - rugs and under rugs, basements, under porches, and wherever pet animals make their beds. Spray bedding of household pets. Do NOT spray animals directly. Repeat as required.

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labelling.

#### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Do not expose to extreme temperatures. Do not stack more than four drums high. Drums should be opened in well-ventilated areas. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Use this outdoor Fogicide according to the directions of the equipment manufacturer. The amount to use and rate of delivery will vary with different types of equipment. When used in a Thermal Generator, Fogicide should be applied as a dense fog over entire areas to be treated to assure rapid knockdown and kill of airborne insects.

Should be applied as a fog or as fine mist. Completely envelop area to be treated in accordance with the equipment manufacturer's recommendation.

#### MOSQUITOES AND GNATS:

Envelop total area to be treated with a coarse fog or fine spray. Pay particular attention to all zones of stagnation, such as consistently damp or wet areas.

#### FLIES:

Envelop in a fine fog or mist. Use fog in repelling flies for many critical areas such as stables, barns, rubbish piles, etc. Do not use in Dairy Barns or on livestock intended for slaughter.

#### MOSQUITO LARVAE CONTROL

Apply at the rate of two gallons per acre. Take care to avoid heavy applications to ornamental plants and when used in shallow water.

EPA REG. NO. 8123-30  
EPA EST. NO. 8123-IL-1

# SUPER FOGICIDE

## CONCENTRATE - Must Be Diluted Before Use

This is a very concentrated insecticide, and must be diluted before use. Mix 2 gallons of this concentrate with 40 gallons of No. 2 fuel oil (or similar diluent) for ready-to-use insecticide.

This insecticide is very stable, even in the very high temperatures present in Thermal Fog Generators.

**ATTENTION:** This product is toxic to Fish. Keep out of lakes, streams or ponds. Apply this product only as specified on this label.

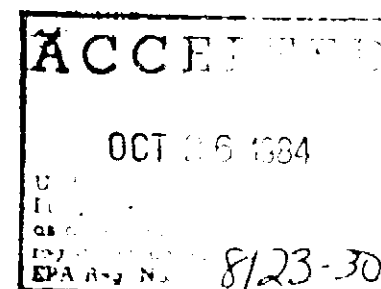

When using Thermal Fogging machines maximum effectiveness is obtained in still air with Thermal air currents absent.

#### CAUTION

Harmful if swallowed. Avoid prolonged breathing of spray mist. Avoid repeated or prolonged contact with skin. Wash thoroughly. Avoid contamination of feed and foodstuffs. Keep container tightly closed and away from heat and open flame. Keep out of reach of children. In case of spillage on skin, wash with soap and water and change clothes. Bathe promptly with soap and water.
