

**CAUTIONS**

This product will kill or seriously injure many desirable forms of vegetation. Do not apply directly to flowers, fruits, vegetables, grapes, ornamentals, cotton or other desirable plants. Do not use when there is hazard from drifting mists. (Coarse sprays are less likely to drift.)

Vapors from this product may injure susceptible plants in the immediate vicinity.

Avoid contamination of water used for domestic purposes and irrigation purposes. Excessive amounts of this product in the soil may temporarily inhibit seed germination and plant growth.

Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not store near fertilizers, seeds, insecticides or fungicides.

Avoid contamination of feed and foodstuffs.

Do not reuse empty drums. Return to drum recycler or destroy by perforating or crushing and burying in a safe place. Do not burn.

Spray equipment used in applying this product should be thoroughly cleaned before using for any other purpose. Use repeated flushing with soap and warm water or suitable chemical cleaner. It is best to use a separate sprayer for application of insecticides and fungicides.

May cause skin irritation.

Harmful if swallowed.

Avoid contact with eyes, skin or clothing.

Avoid inhaling spray mist.

Do not use on light sandy soils.

Do NOT store with foodstuffs.

## Selective Lawn Weed Killer

For Control of Broadleaf Weeds on Ornamental Turf Areas

**ACTIVE INGREDIENT:**

Diethanolamine Salt of 2-(2-methyl-4-chlorophenoxy) propionic acid ..... 32.8%

**INERT INGREDIENTS:** ..... 67.2%

TOTAL ..... 100%

\* Equivalent to 22.0% 2-(2-methyl-4-chlorophenoxy) propionic acid or 2.0 lbs. MCPP acid per gallon.

**CAUTION: KEEP OUT OF REACH OF CHILDREN.**  
See Other Precautions On Side Panels.

**GENERAL INFORMATION:** MCPP has proven to be a very useful herbicide for control of the surface-creeper or prostrate broadleaf weeds listed below. Although relatively slow in action, one of the advantages of MCPP is that it is less injurious to fine turf grasses than 2,4-D or similar. Can be used on most bent varieties, but use caution on Seaside, Arlington and Congressional bents which may be injured. Do not use on St. Augustine Grass.

**WEEDS CONTROLLED**

- |  |                                     |
|--|-------------------------------------|
| Common Chickweed (Stellaria media)       | Ground Ivy (Glechoma hederacea)     |
| Moose-ear Chickweed (Cerastium vulgatum) | Stinkweed (Stellaria media)         |
| Red Clover (Trifolium pratense)          | Knottedweed (Polygonum convolvulus) |
| White Clover (Trifolium repens)          |                                     |

**DIRECTIONS FOR USE**

APPLICATION RATE ON	PER 1,000 SQ. FT.	PER ACRE
Established greens and fine turf lawns	1.02 fl. ozs.	4.5 pints
Other established turf and lawns	2.04 fl. ozs.	9.0 pints

**NOTICE**

Follow directions carefully. Timing and method of application, weather and crop conditions, in mixes with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes responsibility of use, storage, handling of this material, not in strict accord with directions given hereon.

**DIRECTIONS Continued**

Better weed control, usually, may be obtained with weekly applications at half recommended rate. This is preferred especially on bent grasses and greens where there has been no previous experience.

**HOW TO APPLY:** Apply as a water-mix spray in 20 to 40 gals. water per acre (4 gal. per 1,000 sq. ft.). Apply with boom type sprayer to give thorough coverage. Small areas may be treated with a knapsack sprayer. Do not mow for several days before or after application. Withhold sprinkling for 24 hrs. after application.

**WHEN TO APPLY:** For knottedweed apply spring or early summer when weeds are young for best results. For other weeds listed, apply in spring or fall when weeds are young and before they set seed.

**CAUTION:** Do not apply when turf is suffering from drought conditions or during very hot, very wet weather or conditions. Turf may result in injury.

Local conditions may affect the use of this material. Consult State Agricultural Experiment Station or Extension Service, weed or turf specialists for specific recommendations as to dosage and time of application and for control of other weeds.

**ONLY FOR SALE TO, USE, AND STORAGE BY SERVICEPERSONS**

Your Letter and Submission Dated August 9, 1984

This acknowledges receipt of the above submission. Make the following label changes before you release the product for shipment bearing the amended labeling:

1. Place the front panel use directions (consolidate) under one heading - "DIRECTIONS FOR USE." "It is a violation of Federal Law to use ... with its labeling."
2. Under the heading ENVIRONMENTAL HAZARDS, add "Do not apply directly to water." Delete the statement "Keep out of lakes, streams or ponds."
3. Delete the statement "Do not reuse empty drums. Return to drum...Do not burn burn ~~\_\_\_\_\_~~  
~~\_\_\_\_\_~~."
4. Refer to 40 CFR 162.10 for proper label format, including headings and subheadings for Precautions and Directions for Use. A sample label format is enclosed for your guidance.
5. Submit two (2) copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

Submit or reference appropriate nitrosamine data for this product. Refer to the enclosed Agency's proposed nitrosamine policy published June 25, 1980, in the Federal Register (45 42854).

Sincerely yours,

Richard P. Mountfort *RFM*  
 Product Manager (23)
