DIRECTIONS FOR USE:

8123-45

Before using this compound, exposed food products and packaging materials must be removed from the room or protected. After using this compound, equipment and utensils must be thoroughly rinsed with potable water before operations are resumed.

Dilute with water on a 1 to 9 basis to be used as a surface spray for control of roaches, waterbugs and silverfish in the edible products areas of Federally Inspected Meat & Poultry Processing Plants.

For control of roaches, waterbugs and silverfish, thorough and repeated spraying of infested area, working the spray into cracks and other hiding places is recommended. Emphasis should be placed on hitting the insects directly and on repeated applications.
